For a sound body there's no need to exercise relentlessly . Regular Yoga, Surya namaskar and Gardening is more than enough.

SOME INTERESTING CONCEPTS

WABI SABI
There lies such beauty in the imperfections , fleetings of nature all around us .
Choose to see beauty in the flaws, in the incompleteness of things and people.
Each one of us is unique!!
Embrace this uniqueness.

#BeUnique

* ICHI - GO ICHI - E *

This moment exists only NOW and won't come again .

Stay in the moment. ENJOY the present that life brings us.

Don't dwell in the past .
Don't predict the future .

12/

LOGO THERAPY.

Popularised by Victor Frankl who believed that everything can be taken from a human ,except THE WILL to live .
That becomes the reason to live.
We just need to DISCOVER it .

For he who has a WHY to live for, can bear with almost any HOW .■

13/

GO WITH THE FLOW IN WHATEVER YOU DO .

Why is this necessary?
When we flow we are focused on the task at hand . NO DISTRACTIONS.
Helps keep mind in order & ensures quality output.

#GoWithTheFlow
Elaborated in these notes .
■

Find flow in everything you do

Go with the flow & experience the state of
"BEING"

7 conditions for achieving FLOW

knowing WHAT TO DO.
knowing HOW TO DO IT.
knowing HOW WELL you ARE DOING.
knowing WHERE TO GO. (Navigation skills)

Perceiving different challenges
Perceiving different skills
Being FREE from distractions.

ADVANTAGES OF FLOW

Nidyal

- ① A focused mind
- ② Living in the present
- ③ We are free from worry
- ④ The hours fly by (NOT APPLICABLE FOR ME :))
- ⑤ We feel in control
- ⑥ We prepare thoroughly
- ⑦ We know what we should be doing at any point.
- ⑧ Our mind is clear & overcomes all obstacles.
- ⑨ Our ego fades.
- ⑩ Everything seems pleasant !! :)

The trick lies in "NOT TRYING " . :))

#meditation

⇒ MEDITATION ⇐

Different types of meditation with same underlying objective -

- ① CALMING THE MIND
- ② OBSERVING OUR THOUGHTS & EMOTIONS
- ③ ~~CENTERING~~ ^{CENTERING} OUR FOCUS ON A SINGLE OBJECT

No right way to meditate EXISTS. Explore.

Our mind is a constant swirl of thoughts, ideas & emotions

WE JUST NEED TO SLOW DOWN THE CENTRIFUGE

Let things, events, memories flash. DON'T FIGHT THEM. LET THEM PASS.

Have no reservations. Make no judgement.

Focus on your BREATH
Breathe better, live longer!

As Taleb says , we need randomness, mess , adventures. uncertainty , self discovery and trauma - All of it ; to make life worth living .

Let's become Anti fragile by
learning to get rid of things that make us Fragile .

HOW ?

= ANTI FRAGILITY =

Proposed by TALEB - Antifragile

Something that is beyond resilience/robustness.

" THE RESILIENT RESISTS SHOCKS.

THE ANTI FRAGILE GETS BETTER "

Get rid of things that make you fragile

- * IN BETWEEN MEAL SNACKING
- * TOO MUCH SUGAR
- * DEBT
- * COMPANY OF TOXIC PEOPLE
- * DOING THINGS BECAUSE WE HAVE TO - NOT BECAUSE WE WISH TO!
- * SOCIAL MEDIA OVERDOSE.

Embrace Adversity as each set back is an opportunity for GROWTH

16/

To sum it up ,

These are the 10 Rules of Ikigai.

ALL SEEMINGLY OBVIOUS.

But ultimately we need to delve deep within ourselves to find OUR IKIGAI - Our purpose .

The book just emphasises on certain aspects and approaches that help us on our self discovery journey.

THE 10 RULES OF IKIGAI

- 1) Stay active, don't retire.
- 2) Take it slow.
- 3) Fill your belly up to 80% only. (HARA HACHI BU)
- 4) Surround yourself with good friends.
- 5) Get in shape for your next birthday!
- 6) SMILE !!! ☺
- 7) Reconnect with Nature.
- 8) Give THANKS.
- 9) Live in the moment.

STOP regretting the past and fearing the future

- 10) Follow your IKIGAI, your passion,
your purpose!

17/17

We all have the capacity to do noble or terrible things.

The side of the equation we end up on depends on OUR DECISIONS, NOT ON THE CONDITIONS in which we find ourselves.

That's IKIGAI for you . :))
