Notes :

- Analytical ratios have been calculated as per definition given in IRDAI Analytical ratios disclosure.
- The persistency ratios are calculated in accordance with the IRDAI circular no. IRDA/ACT/CIR/MSC/035/01/2014 dated January 23, 2014 and hence are with a lag of one month.
- Group business, where persistency is measurable, has been included in the calculations. Rural business policies issued from FY 2018-19 onwards are included in persistency ratio calculations.
- The persistency ratios for the quarter ended December 31, 2020 have been calculated for the policies issued in the September to November period of the relevant years. E.g.: the 13th month persistency for the current quarter is calculated for the policies issued from September 2019 to November 2019. The persistency ratios for quarter ended September 30, 2020 and December 31, 2019 have been calculated in a similar manner.
- The persistency ratios for the nine months ended December 31, 2020 have been calculated for the policies issued in the December to November period of the relevant years. E.g.: the 13th month persistency for the current year is calculated for the policies issued from December 2018 to November 2019. The persistency ratios for the December 31, 2019 have been calculated in a similar manner.
- The persistency ratios for the year ended March 31, 2020 have been calculated for the policies issued in the March to February period of the relevant years. E.g.: the 13th month persistency for the year is calculated for the policies issued from March 2018 to February 2019.
