So how does a woman get shot, fall backwards, no blood splatter, paraded in front of us, the one witness is full of shit, the only lucky news person to pluck him is from Canada, works for a company owned by JR Shaw, who just happens to donate all his money to the left?

Guy about 13 seconds in is sus af

Why are the tow randoms just allowed to be there taking video?

Why is guy in back left with professional camera just allowed there?

Who the tf is the guy in back right in suit?

Shot in chest?

I didn't see any Capitol police?

And most Trump supporters

DON'T WEAR A MASK

Twatter will not let me post video so I tried. Screen record

The gun shot comes from guy on the left

Whether she was struck by a round or not is still sus

Hope this works - I can't post or DM the actual file

I CANNOT post the actual video file of the shot from the suit on left

Only a recording of my screen playing the file

■■

Mmhmmm

Capitol police

And these other cops not even worried like they could get shot?

This is not how people act.

Especially trained people.

Cops seem to pull back

About 38 seconds in cop and FUCKING GUY IN SUIT

Enchange secrets ■
