@mishadavinci

Smart people get ahead of the future.

The other 99% miss out.

Here are 10 fields with careers that will make you a success in 2030 (and beyond):

1/ Artificial Intelligence

Tech roles:

- Machine learning engineer
- Computer vision engineer
- Data scientist
- Data engineer
- Algorithm engineer

- Research engineer

<https://t.co/P8pH5eMAAR>

Non-tech roles:

- Human Resources
- Artificial Intelligence Writers
- Virtual Assistants and Chatbots designers
- Conversation Designer
- User Experience Designer
- User Interface Designer

AI And Machine Learning Full Course | |Simplilearn

<https://t.co/ff2qmol6M2>

2/ Internet of Things

Tech roles:

- IoT/Cloud Software Developer
- IoT Infrastructure Architect
- IoT Systems Administrator
- Vulnerability/Cyber Engineer
- Test Engineer

<https://t.co/Enz1tcHJ2Z>

Non-tech roles:

- Product Managers
- IoT Solution Architect
- IoT System Design
- Project Management
- Marketing
- Sales

IoT Tutorial for Beginners | Full Course | Simplilearn

<https://t.co/1BaA9Kkm5H>

3/ Cyber Security

Tech roles:

- Cryptography engineer
- Security architect
- Security engineer
- Penetration tester
- Security systems administrator

<https://t.co/m1598wEtBn>

Non-tech roles:

- Security Awareness and Culture Engineer
- Policy Writer
- Governance and Risks, and Compliance
- Data Protection Officer
- Technical Content Creators
- Customer Success Manager
- Technical Writer

Cybersecurity Crash Course

<https://t.co/xcCRklERcc>

4/ Genomics

Tech roles:

- Computational Genomics and Data Scientist
- Genomics Researcher
- Clinical and Laboratory Geneticist
- Technology Development

<https://t.co/gpJ6vl1kga>

Non-tech roles:

- Ethical, Legal, and Social Implications Research
- Genomic Medicine Clinician
- Genetic Counselor
- Technical Writer
- Content Creator

Introduction to Genomics

<https://t.co/B41c6AnDwv>

5/ Drones

Tech roles:

- Lead engineer
- Software engineer
- Full stack developer
- Manufacturing test engineer

<https://t.co/HhGzhgsEc3>

Non-tech roles:

- Construction / Mining / Aggregates
 - Filmmaking
 - Public Safety
 - Insurance
 - Journalism
 - Agriculture
 - Transportation
 - Energy
- and more.

How I Became a Professional Drone Pilot

<https://t.co/J5R2O7t5IU>

6/ Virtual & Augmented Reality [XR]

Tech roles:

- Software Developer / Software Engineer
- AR/VR Maintenance and Support
- Design/Graphics Engineer
- Software Engineer
- XR Gameplay and Tools Engineer

<https://t.co/Tt072lfhdv>

Non-tech roles:

- Game Designer
- Metaverse Designer
- Game Writer
- Language Translator
- Animations and Visual Artist
- Social Media Manager

Virtual Reality Course by Prof Steven LaValle

<https://t.co/PyOEoJFim5>

7/ Nanotechnology

Tech roles:

- Memory Design Engineer
- Novel Memory Circuit Design Engineer
- R+D Engineer
- Process Engineer

<https://t.co/lG3sABOw1e>
