Screeners helps trader in saving lot of time in filtering best stocks out of 5000+ listed stocks.

Here is the list of top 7 Free Strategy and its respective screeners that I use:

Also, last screener is my favorite to pick early momentum stocks.

1/ Golden Crossover:

Golden Crossover of 20 EMA above 200 EMA is a good strategy used by the trader. This screener will help you in identifying stocks that has given golden crossover.

7/ Volatility Contraction:

This is one of my favorite. Volatility Contraction pattern helps in picking up stocks just before the big move starts.

This screener will help in picking up stocks that are going to give big move.
