3 INTRADAY TECHNIQUE USING VOLUME PROFILE

Here I will use a simple FREE tool called Fixed Volume profile available even on Free tradingview version.

Watch the below video to understand the way to plot volume profile ■

Scroll down to understand the terms and strategies

There are 4 Important components in Volume profile. Let's understand one by one starting with High Volume Zone.

Scroll down ■

Then comes VPOC - Volume point of control

Scroll down ■

Then comes VAH & VAL (Value area High & Low)

Scroll down ■

Now let's deep dive into to how to use it for trade entry and Intraday opportunity in favour of market direction

Example no - 1 to understand the way to react around VPOC

Scroll ■

Example no - 2 to understand the trade opportunity using both VPOC & High volume area

Scroll ■

Example no - 3 Using Value area levels

Scroll ■

Examl no - 4 Multiple day untested levels and to identify change in direction during Market hours

Scroll ■

Example no - 5 Failure / False breakout trade opportunity
