I've been tweeting about Michelle Mone for almost a year. Medpro was created by her husband to get the £200 mill covid contract. It didn't exist before 2020... yet Tories try & claim it was a genuine transaction for PPE. Barrowman's now going on trial in Spain... we want a TRIAL!

Proof of time of establishment at very bottom of screen shot. It was set up as a literal cash grab by ripping off the NHS for £100's mills. Tory peer Baroness Mone & her husband Barrowman.

PPE Medpro Limited
is a registered company in
England & Wales: 12597000
