Hey [@SecDef](#), is it appropriate for a retired three-star to teach [@USArmy](#) PSYOP techniques to cult members?

“5GW” is a handbook for waging 360-degree psychological war on American citizens. It includes the diagram below.

Thank you [@TheRachelHamm](#) I very much look forward to discussing 5GW and any other topics your audience wants to discuss. <https://t.co/lIsly6DEmB>

"5th Generation Warfare" is a barely disguised "Turner Diaries" designed as a way to incite civil war by radicalizing people through identity politics and terrorism.

@SecDef, allowing @GenFlynn to continue this is a dereliction of duty,
