THIS IS INDEX THREAD

Because the FBI raid of Donald Trump's home in Mar-A-Lago involved nuclear secret documents that Trump deliberately was hiding, it is a crime that that carries DECADES of prison. If he tried to sell them, he could see death penalty

This links my Threads

First Thread about the Mar-A-Lago search was written before we knew about the nuclear documents. But this shows you how bad the GENERAL raid was on Trump. You may find it useful to read this Thread first

Ten years from now, when we look back at this point in Trump's career ending - we will see, that raid on Trump residence provided the keys to most of his convictions

The safe

My second Thread is about Merrick Garland's short press conference. It discusses the search warrant. And how severe this was, how thorough DOJ has been, giving valuable background on what happened BEFORE this search warrant

On Search Warrant

First. Attorney General Merrick Garland said he personally approved search warrant filing. If you doubted is Garland shielding rich white Republican assholes, STFU

Second. Garland told us they had issued a subpoena for the missing documents. Trump defied it

This is my first attempt at a 'serious' Thread relating to news about the nuclear secret news. It is also the early draft of what will become my 'Path 6' to take Trump to prison for life (certainly. My previous 5 Paths also take Trump to prison certainly)

My first 'serious' reaction to the nuclear bombshell news about [#TraitorTrump](#)

This opens my 6th path. Yes. This will now be the 6th certain path to take Trump to prison for life (each separate & certain convictions)

Is POSSIBLY his most serious crime. Could face death penalty pic.twitter.com/DSCOO1TyVY

I was first person to estimate prison time for total Trump crime waves. I have now updated that. This is my latest update of total Trump prison time, including a very conservative count of prelim nuclear secret theft:

Prison Years Auctioneer

For those keeping count. As I am now adding my 6th Path to Trump certain paths to take him to prison for Life or more, I am also ready to offer my opening bid for added prison time - yes, boldly even before seeing the search warrant:

Add 45 years

And while we are on Trump punishment, I want to make very clear my position. While the death penalty now becomes a possible punishment for Trump, I am VEHEMENTLY against death penalty. I want Trump to suffer a long life in federal custody

<https://t.co/mlKNcTMryY>

And let me be very clear. I am certain Trump has at least attempted to sell US nuclear secrets to a foreign country. Not sure if he actually did it, or was caught in the attempt

That carries death penalty. I am against death penalty

I want him to live long life in prison & misery pic.twitter.com/vAIAAoI0dM

Because Trump's crime of stealing national security documents was not to keep them for himself, like say some artwork, Trump intended to sell America's nuclear secrets, I did preliminary survey of who might be involved

Middlemen Thread/1

As Trump Mar-A-Lago raid by FBI was about nuclear secrets, Trump is too dumb to comprehend such documents. He would rather eat them (with ketchup). Trump stole our secrets to sell them. To foreigners

After I read the warrant & receipt of items seized, I wrote my first update Thread. This is my current 'latest thinking' on the matter:

Update on Mar-A-Lago Documents 1/

Short Thread to update after reading search warrant & the receipt of items seized

Trump is currently investigated for ESPIONAGE. That potentially carries death penalty

Trump received subpoena in June to return stolen documents. He defied it pic.twitter.com/XG05LNuDH7
