CDSL - Learning.... ■■

I believe 5-10 stocks are enough for a retail investor to achieve super performance. And with small capital, there is no point in buying 20/30 names which doesn't even get appropriate initial capital.

Stock: CDSL

CMP - 516.95. Low risk setup. Weak below 500. Target open. Stock retesting the ascending triangle BO line. Kindly check please. @nishkumar1977 @Rishikesh_ADX @VijayThk @kuttrapali @Thekalal @PAVLeader pic.twitter.com/PlcpOMsdnz
