Navdanya International @NavdanyaInt

1/13 #ClimateChange is a result of a mindset, that is based on monoculture, fossil fuels, chemicals, corporate control. <u>@BillGates</u> cannot alter a condition with the same mindset that created it in the first place <u>@Trevornoah</u> <u>@drvandanashiva</u>

2/13 The mad rush for #FakeFood and #FakeMeat, ignorant of the #diversity of our food cultures & the role of biodiversity is a recipe for accelerating the #climatecrisis, the destruction of the planet & our health @drvandanashiva https://t.co/vH6FyBDWCx

3/13 The perpetrators of the industrialized & now digitized predatory economic model that has led to worldwide ecological devastation are trying to sell us their solutions as the only path forward <u>@drvandanashiva</u> <u>@NnimmoB</u> #FalseSolutionsToClimateChange <u>https://t.co/zYP5ZCn8hv</u>

4/13 The #GatesFoundation works to create a friendly regulatory environment to push its innovations regardless of risks or past failures by funding to align to its interests- media, research, start-ups, government programmes & international institutions <u>https://t.co/YFvxzEfuaW</u>

5/13 Amnesia and denial of past failures becomes evident with the <u>@gatesfoundation</u> new initiative #AgOne where only digital tech and the #GreenRevolution is seen as the solution to the #ClimateCrisis & #BiodiversityCrisis <u>@drvandanashiva</u> <u>@BioSRP</u>

https://t.co/n1Meyz3CVT

6/13 Behind initiatives launched by <u>@gatesfoundation</u> is a urgency that all new technologies & mitigation efforts must be quickly implemented in the name of stopping #ClimateChange masking his wide support for further industrialization. <u>@drvandanashiva</u> <u>https://t.co/Z97z5R3pF8</u>

7/13 The #CarbonBubble of big fossil fuel industries is about to pop and the last-ditch efforts of big business to not lose trillions of dollars in assets is through funding the escape hatch known as #geoengineering @druojajay @ETC_Group @drvandanashiva https://t.co/ga1Maqw2gX

8/13 Regardless of <u>@BillGates</u>' coy attitude toward #geoengineering & his seeming interest in funding #ClimateChange solutions, he is the largest shareholder in one of Canada's largest oil and gas company, Canadian National Railway

@druojajay @ETC_Group https://t.co/1V4vtPkjlz

9/13 While it is extremely tempting to look for immediate solutions #GatesFoundation embodies the solutionist mentality that sees technology as the only way to solve complex problems. @drvandanashiva https://t.co/roJ4skDy3g

10/13 Latin American #gatesfoundation initiative #AgTech is made up of partnerships w/ <u>@Microsoft</u>, Bayer, Corteva & Syngenta, showing <u>@BillGates</u> continued partnership w/ #pesticide giants responsible for #ClimateChange & #EcologicalDestruction <u>https://t.co/LR0mbRign7</u>

11/13 Long term & reliable solutions to the #ClimateCrisis come with #biodiversity, #LivingSoil #LivingSeed local diversified food systems & #OrganicFarming - not shortsighted silver bullet #fakesolutions & #technofixes @drvandanashiva @greyherren https://t.co/G3OoS5aHnp

12/13 Regenerating the planet through living processes of #biodiversity-based agroecology & growing & recycling #LivingCarbon has become a survival imperative to counter #ClimateChange @drvandanashiva @regeneration_in https://t.co/NCtgl7RiTZ

13/13 <u>@Trevonoah</u> <u>@BillGates</u> <u>@gatesfoundation</u> <u>@TheGuardian</u> <u>@Commondreams</u> <u>@ETC_Group</u> <u>@drvandanashiva</u> <u>@GMWatch</u> <u>@TimothyAWise</u> <u>@sethitzkan</u> <u>@NDentico</u> <u>@BioSRP</u> <u>@11thhourproject</u> <u>@greyherren</u> <u>@regeneration_in</u> <u>@druojajay</u> <u>@GeorgeMonbiot</u>
