Parabolic move has been triggered. Let's have 27k. That could be the buying zone for IT names.

#CNXIT <https://t.co/bJeKTMoCji>

The current formation might look like a falling wedge, but the way moving averages are placed, it looks like a falling wedge which can lead to a parabolic downmove for the marked target. #CNXIT [pic.twitter.com/GmXOI3HmUN](https://pic.twitter.com/GmXOI3HmUN)
