**What happened to IEX can happen to CNXIT. Savdhaan rahe, satark rahe. Reiterating it again, every falling wedge/channel, RSI divergence is not a reversal signal.**

**#CNXIT**

Watching the marked zone to be tested. If it doesn't cross it, then most probably a parabolic downmove towards 24k. That would lead to even large caps cracking just like Small and Midcaps. [#CNXIT https://t.co/FxbzP5vIBr](https://t.co/FxbzP5vIBr)
