@dermayank

Are you a web developer?

Here are few Productive Tools that will save you 10+ hours per week

■A Thread ■

1. Metatags

This tool can help you to test and view your website's preview when viewed on Google, Facebook, or Twitter.

https://t.co/y0aRRUaiab

2. ExtractCSS

This tool can help you to extract element Id, class, and inline styles from HTML documents and output them as CSS stylesheets.

https://t.co/s8KPGVQ5ru

3. WhatRuns

This tool can help you to peek at other site's themes, plugins, and server info used. WhatRuns can be installed on @firefox and chrome.

https://t.co/m9Y8FlUSZp

4. Unminify

Free tool to unminify javascript, CSS, HTML, XML, and JSON code making it readable and pretty.

https://t.co/hPvPKK4yUN

5. Responsively App

This browser is designed to help you see what your website like on different technology devices at once.

https://t.co/k3szGHQNbX
