2015-Harari in a talk at Google

"Communism was the first techno-religion"..."It promised peace, prosperity, paradise, but here on Earth with the use of technology" & says communism emerges out of industrial revolutions

2022-4th Industrial Revolution, Great Reset/BBB, C 19

Elon Musk's ex-wife 'Grimes' says "AI is the fastest path to communism"
https://t.co/8hRZ4sCMn6
■2

I did a thread in August about a WEF paper that suggested young people would rather be ruled by AI than humans (link in next post). It's pretty wild to see young commies now advancing that narrative.

Grimes (Canadian musician) says "AI is the fastest path to communism"

Harari Speech at World Economic Forum 2018,
https://t.co/xoCIgPs4B4
■4

"control of data might enable human elites to do something even more radical than just build digital dictatorships. By hacking organisms, elite's may gain the power to re-engineer the future of life itself."

World Economic Forum Meeting 2018
SPEAKER: Yuval Noah Harari

Essentially we have a group of elites in the corporate, government, technological, & scientific circles taking it upon themselves to create a new global system. A system emerging out of the pandemic, which they are directly benefitting from...
https://t.co/ctBBraxLgf
■5

> Gillian Tett: "so do you want the scientists to take control? Do you want the United Nations? Do you think the United Nations is capable? The World Economic Forum? I mean could all of the people here take control of this?"
