How was the Bolshevik Revolution financed? "International bankers" do I hear you say?

On November 6 and 7, 1917 (or **October** 24 and 25 on the Julian calendar, which is why the event is often referred to as the **October**

Revolution), leftist revolutionaries led by **Bolshevik** Party leader Vladimir Lenin launched a nearly bloodless coup d'état against the Duma's provisional government. Feb 28, 2020

Gary Allen makes it very clear.

bolshevik

J. P. Morgan created artificial panic used as an excuse to pass the Federal Reserve Act. Morgan was instrumental in pushing the U. S. into WWI to protect his loans to the British government. He financed socialist groups to create an all-powerful centralized government which international bankers would control at the apex from behind the scenes. After his death, his partners helped finance the [Bolshevik](#) Revolution in Russia.

Neither presidents, congressmen nor secretaries of the treasury direct the Federal Reserve! In the matters of money, the Federal Reserve directs them! The uncontrolled power of the "Fed" was admitted by Secretary of the Treasury David M. Kennedy in an interview for the May 5, 1969, issue of *U.S. News & World Report*:

"Q. Do you approve of the latest credit-tightening moves?

A. It's not my job to approve or disapprove. It is the action of the Federal Reserve."

And, curiously enough, the Federal Reserve System has never been audited and has firmly resisted all attempts by House Banking Committee Chairman Wright Patman to have it audited. (*N. Y. Times*, Sept. 14, 1967.)

How successful has the Federal Reserve System been? It depends on your point of view. Since Woodrow Wilson took his oath of office, the national debt has risen from \$1 billion to \$455 billion. The total amount of interest paid since then to the international bankers holding that debt is staggering, with interest having become the third largest item in the federal budget.

Interest on the national debt is now \$22 billion every year, and climbing steeply as inflation pushes up the interest rate on government bonds. Meanwhile, our gold is mortgaged to European central banks, and our silver has all been sold. With economic catastrophe imminent, only a blind disciple of the "accidental theory of history" could believe that all of this has occurred by coincidence.

When the Federal Reserve System was foisted on an unsuspecting American public, there were absolute guarantees that there would be no more boom and bust economic cycles. The men who, behind the scenes, were pushing the central bank concept for the international bankers faithfully promised that from then on there would be only steady growth and perpetual prosperity. However, Congressman Charles A. Lindberg Sr. accurately proclaimed:

"From now on depressions will be scientifically created."

"... by nationalization of Russia the Insiders bought themselves an enormous piece of real estate, complete with mineral rights, for somewhere between \$30 and \$40 million."

That's a pretty sweet deal.

The "Insiders" being the money men in cahoots with each other, as always...

I have a family history with Milner. His genocidal scorched earth policy in South Africa, resulted in twin great uncles dying of water-borne disease in a British concentration camp, thanks to Milner's policy.

The episode ends with tying Milner & Rothschild to the other main conspirators (not a theory) and how they sparked off WWI.

A global war wherein megalomaniacs engineered human disaster on an unheard of and previously unimaginable scale.

Just like that, we went from 2 colonies and 2 Boer Republics, to a Union.

A matter of engineering & execution. Apart from those damned boers, who gave them such a hiding that they had to scorched-earth their farms to subdue them.

I'm tracing a path from here to the Rothschilds & money men, then heading over to subversive tendencies running China, Russia & America. The USSR was maintained by Foreign Aid, as is Israel subsidized, as well as various other projects.

I'll get back to the top tweet, promise...

Woodrow Wilson signed the Federal Reserve Act.

He also took America into WWI, after campaigning on an anti-war billet the year before.

THE FEDERAL RESERVE

We all know the League of Nations was 1st attempt, later we got United Nations (with its now notorious WHO).

You hear conspirational talk of Deep State & Shadow Government, but what does a "handler" look like?

Introduction ↑

Edward House (1858-1938) was an advisor to President [Woodrow Wilson \(1856-1924\)](#) throughout World War I. He never wanted or held a formal cabinet position, but he helped form Wilson's cabinet. This ensured the continuation of his close relationship with the President throughout the war. He engaged in direct diplomacy and helped Wilson design the [Fourteen Points](#) that became the foundation of the [League of Nations](#). During the [Paris Conference](#) of 1919, House organized the group of academics who became known as The Inquiry. This group provided the President with position papers and research supporting Wilson's diplomatic efforts.

Pre-war Life ↑

Edward House was born in Houston, Texas in 1858 to a wealthy family that was part of elite Texas society. House's father, Thomas William House, Sr. (1814-1880), facilitated blockade runners that docked in Texas ports throughout the Civil War.

Handler? Deep State?

I don't like those terms either. Find your own adjectives, I suppose.

Woodrow Wilson was elected President of the United States in 1912. Politically, he was a novice having only served two years as governor of New Jersey prior to his elevation to the Presidency. Wilson's lack of political experience made him easy to manipulate by the seasoned political pros who surrounded him. "Colonel" Edward M. House, a well-connected associate of the Rothschild international banking dynasty was handpicked as an informal advisor to President Wilson.

The Rothschilds were working hard behind the scenes to foment a global war so their banks could fund the massive costs of military conflict. Colonel House was their man in the White House to "nudge" the new President in the right direction. In the fall of 1914 WWI erupted with the assassination of Archduke Franz Ferdinand and his wife in Sarajevo, Bosnia. France, Britain and Russia faced off against Germany and her allies Austria-Hungary, the Ottoman Empire (modern day Turkey), and Bulgaria.

But the United States had no compelling reason to join the fray and the vast majority of the nation wanted nothing to do with the war. Indeed, Wilson ran for his second Presidential term in 1916 under the slogan, "He kept us out of war!" Colonel House used Wilson's grandiose ego by persuading him that he could go down in history as the man who ended world wars forever with a League of Nations, today's modern day United Nations.

There was only one major problem. Wilson would have no credibility with the combatants to pitch his League of Nation's idea unless America shared in the bloody conflict. And to accomplish that trick House hatched a plan to turn the hearts and minds of ordinary US citizens into clamoring for war! This was accomplished with a brazen propaganda campaign of "fake news" that painted Germany and her allies as heartless monsters that threatened the globe.

America Enters the War

The Rothschild name comes up time and again, so I assume you know them.

This slide pack more or less sums up the common history of the parasitic Rothschild family.

Back in the day, they financed people like Rhodes, & wars kept their profiteering going.

<https://t.co/antv0uVYBD>

By "common history" I mean well-documented & consistent across multiple sources.

Remember Linux started with one kernel & look at the variety of flavors today.

It follows that any lie embedded into history in the past, traveled towards us across time...

Do your own research.

Right, let's skip over WWI and the October Revolution by the Bolsheviks.

The Soviet Empire now encompassing the ancient Khazarian homeland.

Stalin murdered a whole bunch of later, and I think I can guess why...

<https://t.co/cWYIOULWq6>

Holodomor. 6 to 7 million dead.

<https://t.co/yE5akhmsZn>

The Ukrainian Jewish Committee claims the list of high-ranking Soviet state and Communist Party officials, as well as officials from the NKVD, the forerunner of the KGB secret service, released July 23 by the Security Service of Ukraine on its Web site (sbu.gov.ua), makes it appear that Jews and Latvians were responsible for perpetrating and executing the famine, or Holodomor, in 1932-33.

“The documents taken from SBU archives prove that the Famine 1932-1933 was engineered by the criminal totalitarian Stalin regime, but we should be very careful and in this case reveal the names of all high-ranking Soviet state and Communist Party officials and NKVD henchmen who perpetrated and executed the famine and repressions in 1932-1933,” said Jewish Ukrainian lawmaker Aleksandr Feldman, the leader of the Ukrainian Jewish Committee, at a news conference Tuesday in Kiev.

Holocaust. "6 million" actually 4 million but that includes multiple records.

I imagine Haaretz is a legit publication.

<https://t.co/cp9WIOy2bN>

Yad Vashem itself also has its Names Database, an ongoing project in which it attempts to collect the name of every Jewish victim of the Nazis. It relies on testimony from family and friends of those who perished, official archives from the period, and local commemoration projects. As of early 2012, Yad Vashem estimated that the database contained the names of a little over four million different individuals (an exact number is not yet possible because it believes that some hundreds of thousands of people appear in multiple records).

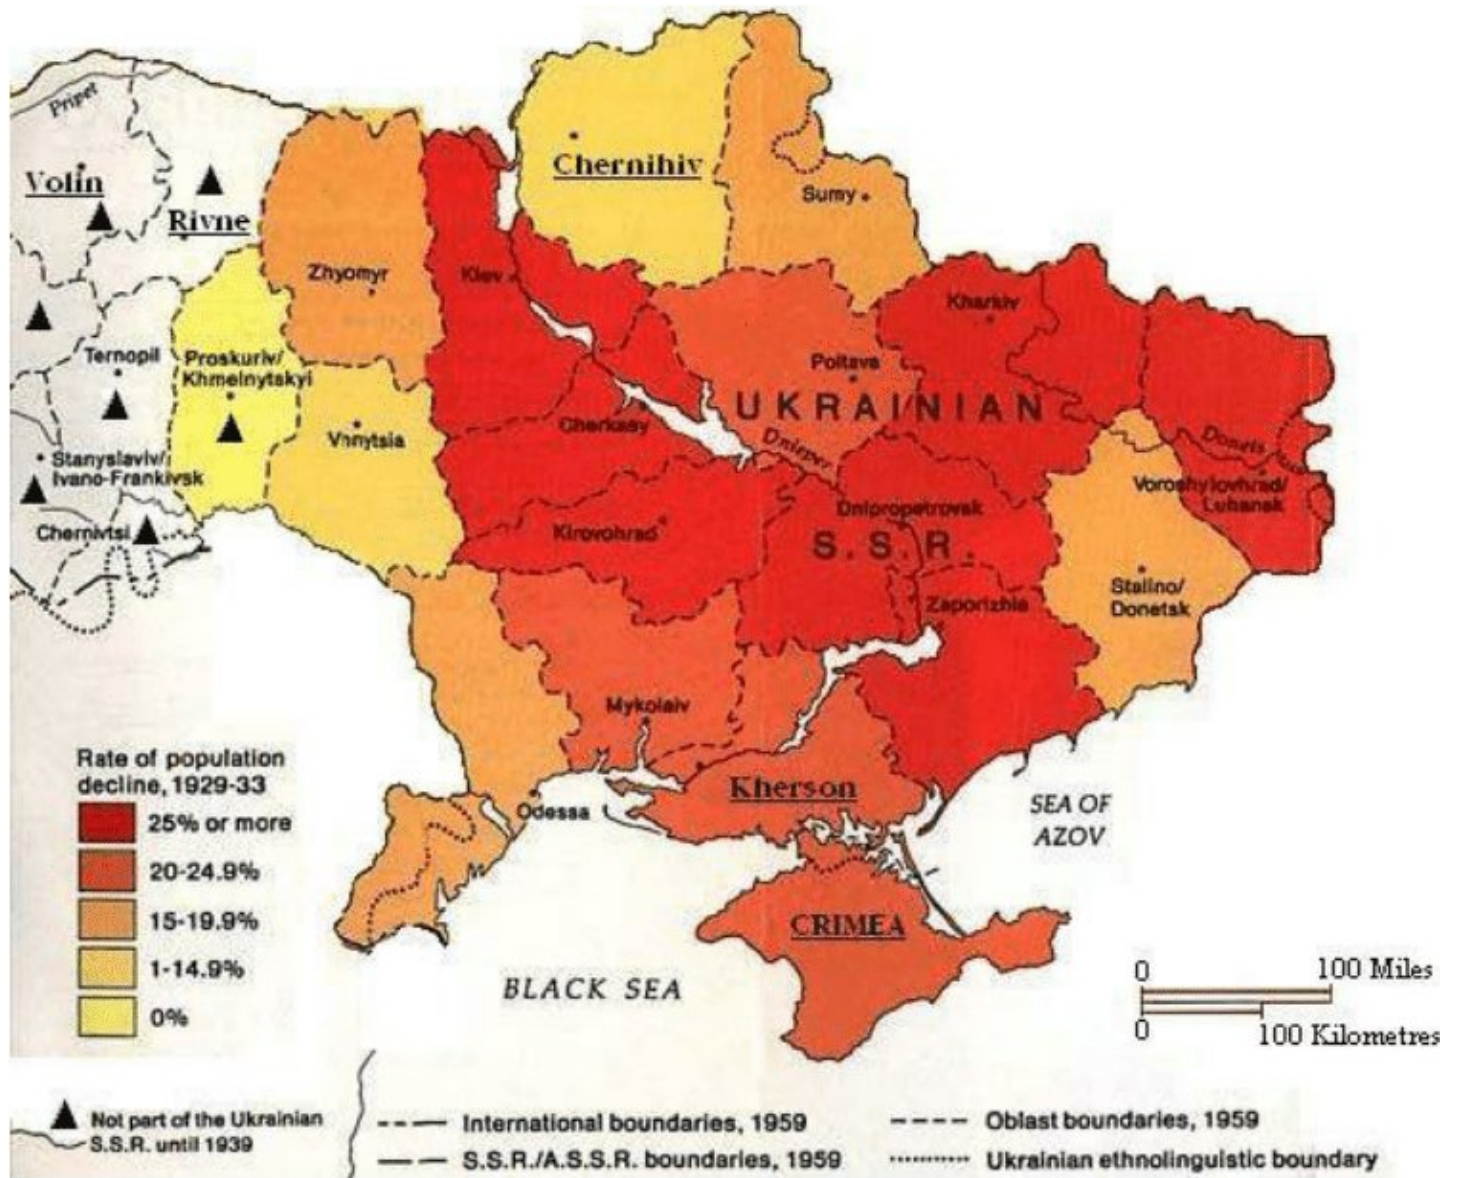

Beyond comprehension

One of the largest sources of uncertainty concerns the number of Jews murdered in the Soviet Union. Whereas the Jews of the countries of Europe occupied by the Germans were for the most part deported to death camps, where fairly good records were kept, the murders in the USSR were carried out by Einsatzgruppen (mobile killing units), as the German army made its way east. Their records were far less comprehensive, so that it is possible only to make a rough estimate of the numbers of Jews killed – generally between 800,000 and 1 million.

Anyway, I digress.

To recap, the Khazarian aka Ashkenazi Rothschild banking elite, now wielding massive power in Africa, America & in Europe, managed to get full control of the USSR, until Stalin turned on them & "made expedient changes in his government" & they lost the asset.

One can only speculate why you'd put so much time & effort into genocidally wiping out people living in & adjacent to, your ancestral homeland.

I assume the pre-Israel plan was Ukraine.

I found this graphic in my travels and it's consistent with bigoted assholes everywhere.

Before we skip to the establishment of "startup nation" Israel, here's the historical record.

Noting that America entered WWI mere months before Britain recognized Rothschild's Zion. And was financed by the Fed.

Clever, hey?

Remember "Colonel" House?

Foreign Office,
November 2nd, 1917:

Dear Lord Rothschild,

I have much pleasure in conveying to you, on behalf of His Majesty's Government, the following declaration of sympathy with Jewish Zionist aspirations which has been submitted to, and approved by, the Cabinet.

"His Majesty's Government view with favour the establishment in Palestine of a national home for the Jewish people, and will use their best endeavours to facilitate the achievement of this object, it being clearly understood that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish communities in Palestine or the rights and political status enjoyed by Jews in any other country"

I should be grateful if you would bring this declaration to the knowledge of the Zionist Federation.

A handwritten signature in dark ink, appearing to read 'A. J. Balfour'. Above the signature, there is a small handwritten mark that looks like '9. inc'.

I'm not going to summarize the whole story of another influential group under the Crown, dating back to the British East India Company.

But you should download and read this book.

Lyndon B. Johnson / Presidential term

22 November 1963 – 20
January 1969

Coming back to so-called Communism, wasn't it nice of American taxpayers to supply so much "non-strategic" technology to the Soviets? The USSR was subsidized by the USA.

He also devotes 8 pages to the CFR, "the invisible government".

Thorough analysis of how "Communism" spread.

While John Stormer is chairman of the Missouri Federation of Young Republicans and a member of the Republican State Committee of Missouri, his book will not be popular with some Republicans for it is not a partisan diatribe.

NONE DARE CALL IT TREASON is a careful compilation of facts from hundreds of Congressional investigations of communism and dozens of authoritative books on the communist-socialist conspiracy to enslave America.

It dissects the failures of the Eisenhower Administration just as effectively as it details the blunders of Roosevelt, Truman, Kennedy and Johnson. It documents the concurrent decay in America's schools, churches, and press which has conditioned the American people to accept 20 years of retreat in the face of the communist enemy. You won't finish *None Dare Call It Treason* without concluding that America is in serious trouble.

J. EDGAR HOOVER has warned repeatedly, "We are at war with Communism and the sooner every red-blooded American realizes this, the safer we will be . . ."

. . . They have infiltrated every conceivable sphere of activity; youth groups; radio, television, and motion picture industries; church, school, educational and cultural groups; the press; national minority groups and civil and political units . . .

. . . We cannot defeat Communism with Socialism, nor with secularism, nor with pacifism, nor with appeasement or accommodation . . . a "soft" attitude toward Communism can destroy us."

In Polish Galicia in the early 20th century, Jewish families split up and members made their way to different parts of the world. Often one part of the family emigrated to America, a second part remained in Poland and a third settled in Palestine. The result is that many Ashkenazi families have a branch in the United States – or, as the phenomenon came to be known in Israel, an “uncle in America.”
