21. You can see by now there isn't a major media company that doesn't have ties to WEF. Global media outlets have been pushing the same narrative for 18 months.

Maybe it's just one big coincidence with all these connections, or maybe a coup has taken place.

22. If you want to stage a coup there are 8 steps.

1. Take over the news
2. Put an idiot you control in power
3. Lockdown the capital
4. Censor and punish dissenters
5. Establish curfews
6. Limit travel
7. Limit gatherings
8. Destroy the economic base of potential resistance

23. The 1st step is critical. Once the media are in control they control the narrative. You are then in a position to censor whatever you want whenever you want. You can also create propaganda which has been rife for the last 18 months.

Are the WEF controlling the media ?

24. You know the drill ■ I write these ■ in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
