for the record nick lee [@econbrkfst](#) started bullying when a close friend was diagnosed with coronavirus. in respect of the tragic circumstances, i asked to be left alone. instead, econbrkfst bullied me mercilessly. my friend has died.

i don't think its reasonable to bully people, endanger them, violate their privacy, ridicule them, etc, as they process the death of their friends. if you knew the circumstances---which i tried to keep private---you would know why i feel injured by econbrkfst's harassment of me.

thank you for respecting my grieving at this time. i ask you to step back and not jump into any witch trial mob initiated by nick lee at [@econbrkfst](#) against me, or especially, black women. [@twittersupport](#) [@twittersafety](#)
