It's another day to expose Peter Alabi @pastorpeealabi of @HoFChurchNG & @ChristTribe. More victims have reached out to us. Unknown to many, Peter Alabi is actually an unrepentant serial sexual abuser. We know that he's been lying that he has repented and that the stories...

... we have put out so far are only with reference to what happened years back. But we can also confirm that he continued to prey on more victims even after he left Ife in 2016. We also know that Peter Alabi made serious attempts to sleep with some ladies during the lockdown...

A victim, who was one of those Peter Alabi tried to sleep with during the Covid-19 lockdown has shared with us some of the chats between her and Peter Alabi, which were initiated by Peter Alabi. According to the victim, when Peter Alabi's intentions became obvious, she decided...

... to play along and act like she was in concert with him. This eventually made Peter Alabi to reveal his covert intentions to sleep with her. The chat began on Instagram in March 2020 and continued on WhatsApp till June 2020. We will be sharing screenshots of the Instagram...

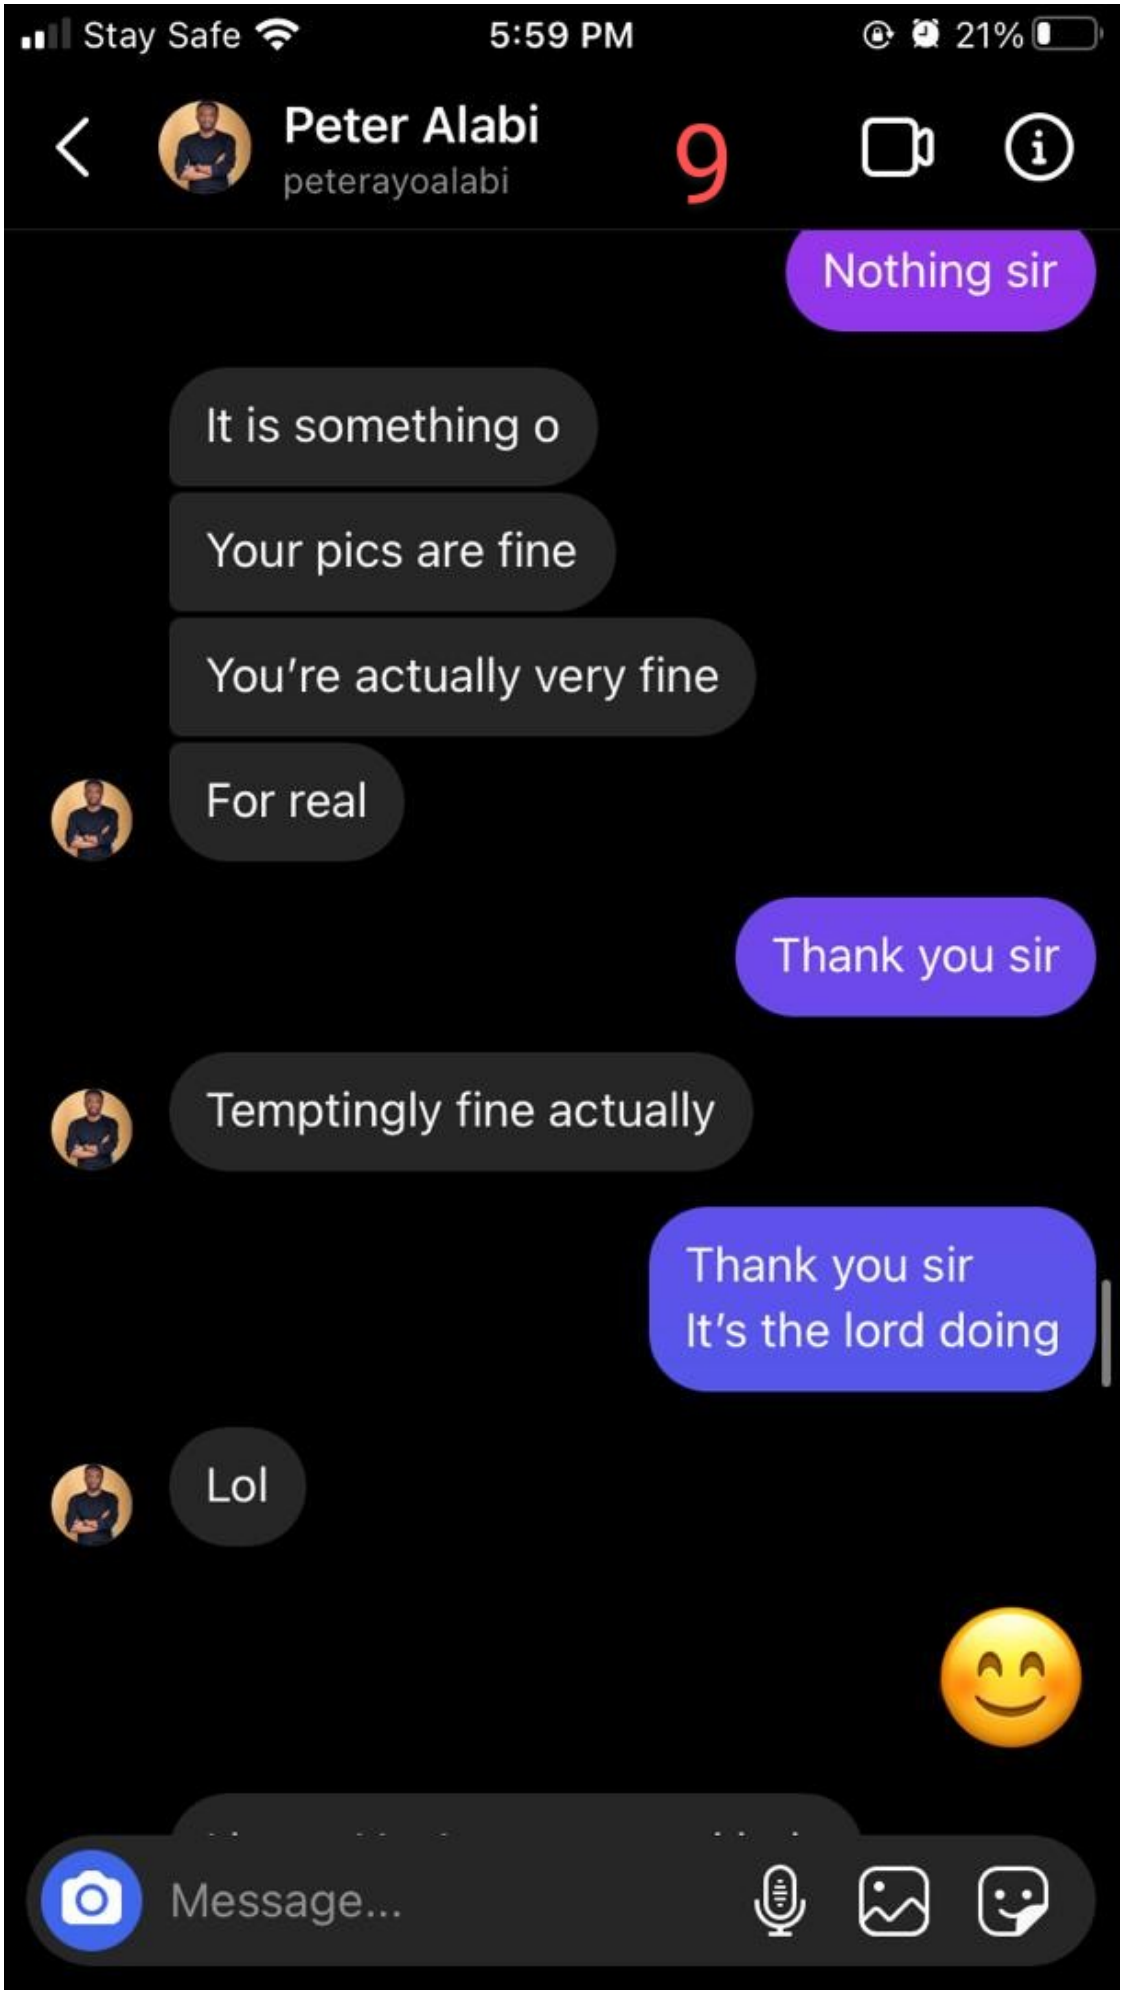

... chats below. Later today, we will share the WhatsApp chats which are more revealing and expository. Please see the screenshots of the Instagram chats between Peter Alabi (peterayoalabi) and the victim below■■ @oauchristians @HoFChurchNG @peterayoalabi @funlola_alabi

I wasn't sure what You felt about me (if You did).
So I was being careful not come looking out for You and then it leads to something else
It's never crossed my mind , I didn't stay away I just got busy and entangled with family issues that has been going on lately sir
I was feeling uncomfortable because there was nothing to feel about sir until now
Ok...
I felt I was being selfish at some point.
That's why I eventually had to reach out to You
Thank you

Or we shouldn't bother considering possibilities of going that far?
It's depends, what is in it for me? What do I stand to gain in all of these ?
