I don't often promote myself on here, but I should. I have done some things that I am proud of. So here is a thread of episodes from @OurTurnPodcast that I contributed a segment and/or co-hosted. #RPG #podcast

Here is one of my very first contributions, a segment about one of my favorite RPGs of all time: 13th Age. @13thAge I still love it, and I have hacked the system to run other genres (ex. Star Wars: The Old Republic). Give it a try sometime.

One the one-year anniversary of @OurTurnPodcast, I did a segment about Session Zero for RPGs. I love being a part of Session Zero in any #RPG, both as a GM and player.
