Kicking off WW84 and listen it starts with showing me Connie Nielsen and Robin Wright and Doutzen Kroes so whatever else happens that can't be taken away from me.

Gotta say this obsessive lesbian erotic thriller vibe coming off Kristen Wiig is a lot of fun as a WW84 bonus item

I'm absolutely loving the rejection porn in WW84 of Diana just telling men no ■■

Watching WW84 not thinking "please step on me Diana!" but instead thinking "please step on ALL MEN, Diana!!!"

L O L the Internet is so weird!

I’d like for us to just start sayinr WELL SHIT DIANA totally out of context

OMG Diana in this utilitarian lesbian jumpsuit!!!!!!

It does feel so *this* Wonder Woman that Diana would get obsessed with the first guy she had sex with and pine after him for decades

PINE!

lol ■

In the lesbian erotic thriller version of WW84 that kit of gold armor is DEFINITELY getting a very kinky featured scene.

The exact thing I came to WW84 for is Gal Gadot in this GOLD FIGHTING SUIT so honestly I’m happy.

Provocatively remove those suspenders! YES Pedro Pascal!!!

God like these loose curls on Gal Gadot. Worth the time.

You know what I love sincerity. WW84 is a perfectly fine time. Ok!
