Understand the concept - whenever you see price squeeze with volume contraction of this level, you will not get another chance to buy the stock at pullback. The character of a strong BO is that retailers won't be able to buy it.

Explained you same concept with Elxsi. The real test of a strong Breakout is that the big hand will not give you another chance to buy the share at the breakout level. They will absorb all the selling of weak hands. I mean "STRONG breakout". <https://t.co/7fxFqGQI3p> pic.twitter.com/hwYloRxazl
