1. “Who Are Ireland’s Members Of The World Economic Forum Implementing The Great Reset In 2021 ? ■1/28

■■■ Politicians, Musicians, Clergy, Bankers, Journalists, Human Rights, Artificial Intelligence, Sustainability, Corporations & Agriculture

2. In previous threads I have looked at ■■ key players in the Trilateral Commission as well as ■■ people who have attended the Bilderberger meetings. I also looked at the ■■ in the Young Global Leaders which is a site run by the WEF. You will see a lot of crossover between them.

3. The purpose of this thread is to compile all the Irish members into one thread for ease of access and reading rather than having to dive through the WEF site. This is by no means definitive and I will be adding more over time when they pop out of the woodwork.

4. Ireland’s WEF members are drawn from all walks of life but can be split into 2 separate areas. The WEF calls the first category “people” and the 2nd one “agenda contributors”. In total Ireland has a minimum of 61 members. Some of the names will be familiar and others will not

5. In this thread I’m just going to concentrate on the 21 people (there are probably a lot more). There are also 40 “agenda contributors” which I will cover in a separate thread. The agenda contributors are those who write articles or do research for the WEF site.

6. The “People” are key influencers in Irish society such as politicians, musicians, clergy, bankers, journalists, human rights, artificial intelligence, agriculture, sustainability. I’ve tried to keep it simple with links going directly to their WEF profile pages
