Is the Farmers Protest a bigger conspiracy than Shaheen Bagh?

I hope till now you all have read enough about these Protests, so it's almost clear now that these r not the 'Farmers Protest'.

So let's connect the dots that how these Protests can benefit China or Pakistan.

[THREAD]

China knows that they can't win in a hand to hand war as PLA stands nowhere in front of Indian Army in mountain warfare in such weather conditions. But China is infamous for it's pseudo warfare.

Recently we get to know that the operation Indian Army did in Sept to occupy...

...hills like Black Top in Ladakh was originally planned in May but we get to know about it now. Diplomatic Talks were just a game. Similarly it's possible that Indian Army maybe planning to do an operation on LAC as it's winter & we have an upper hand on China. But...

How China will counter it?

China must be aware of it & to make it difficult for the India they needed to create unrest in India.

But How?

Farms Bill were passed in Sept but what happened after 2 months now that these Protests got so big?

Same like Shaheen Bagh?

China's leftist..

... agents saw that some Farmers are Protesting and they got a reason to create nuisance. They hijacked the Protests and as usual by Pakistan's Support they got backing using Khalistani Propoganda as that's the only thing where Pak still has strong hold. They started to...

... seige our Power Centre Delhi slowly slowly and it's still going on. There are many intelligence inputs that the Protestors planning to do something big near Delhi. Also Delhi Police arrested 5 Terrorists all were operated by ISI to support Khalistan although Police denied...

their link with the Protests in first sight but who knows what they are hiding. Also the support for the China & Pak in Geo-Politics is nowhere in front of India now. You can see that Protests r going on in every Major Country against India on big level & their only target is...

...Modi.

Why?

Canadian PM again & again speaking on it & also invited China to give training of Mountain Warfare.

Strange?

Also we can't ignore the UK's PM's hint over Pak's involvement in these Protests.

So by doing this they trying to defame India in the world & gain some...

... Support for them in Geo-Politics.

So when there will be such unrest inside the Country on which whole world is focusing no Country can take such bold steps.

So they stopping India from doing any operation on LAC in winters by doing Pseudo Warfare.

Maybe they preparing for...

...it in this time period. Whos knows.

That's what my analysis says, let's see what the future holds for us.

Please do spread this thread and let me know that What do you thinking about it?
