Senator Jake Corman (Pa Sen. Majority Leader) claimed his proposed bill would provide enhanced "signature verification," when in fact it would provide a further mechanism for fuckery, and makes audits harder, by expanding the cure process. A theme? I wonder who drafted it for him https://t.co/4dZJe67ZPh

> I joined @senatorscarnati to intro a bill to expand voter access, implement greater efficiencies within Pennsylvania\u2019s voting process and maintain election security. It doesn\u2019t matter what the process is for casting a ballot if the results are in question. https://t.co/tEoC4YTuKI
