@OnepieceZORO85

here's a thread of valuable non-tech skills you can learn and master lol

https://t.co/IJL2g1HZp7 Signing + notary this channel highly recommend she gives good info https://t.co/ezBDd9fdZC

2. Insurance adjusting claims adjuster of the year goes over everything you need to become an adjuster and more and yeah she cool https://t.co/1vnvXaEasY

Drones drone drones i swear drones are more than just taking photos lol swear drones gonna make me rich but yeah get your FAA 107 drone license and freelance and shit
https://t.co/imKoAyJCNi

4.Wholesaling
Learn how to help homeowners out of their tough situations they may be going through and flip real estate with little money
https://t.co/uw1mBIGsYP

5. Insurance Underwriters make bank i have no youtube videos about this but best companies to become an underwriter for are Nationwide and Pacific Life maybe i'll make a thread about this game from an underwriter with 15 years of experience

6. Home Inspecting swear to god y'all need to praise NIta for this because I honestly didn't know it was a thing until recently but man when I tell you the money is real in that industry 600 for 2 hours of work i made just inspecting a decent home in Cali TAP IN

7. A plumber
8. HVAC
9. Electrician

All three of these are skills that will always be needed and you name your own prices

10. Welders Welders make bank don't sleep on how much money they make!

11. Loan Officer yeah heres a channel you can learn more about it https://t.co/16UWqua0ZC
