Fineotex Chemical Ltd (My Observation ,no recommendations)

Market Cap 1,232 Cr.

Current Price 111

High / Low 120 / 29.2

Book Value 18.9

Promoters holding-around 65% (In Last 3 yrs from 72.36 to 64.72 and last few month 64.72 to 64.82)

-OPM between 18-19% (consolidated)in last 3-4 yrs

standalone between 20-25%

-sales growth last 3 yrs 16% and profit growth 23%

- Almost debt free

- High debtor days

-Good ROCE and ROE

EBITDA Margins - Company is hopeful for maintaining margins of 18-19%

EBITDA and EBITDA Margin

-Manufacturing ,JV and R&D

1- Navi Mumbai- Capacity 36000 MT

2 Malaysia -6500 MT

3- Upcoming- Ambernath facility - 36000 TPA

4-JV with HealthGuard Australia for durable metal-free sustainable chemistry solutions that are anti-microbial and anti-viral(textile,detergent, leather and allied products)

5-Sasmira-Setting up a state of art Research & Development centre in collaboration with Sasmira Institute, one of India's premier textile institutes

-Fy 21 R&D expenses 1.85 cr with top line of 219 cr (I hope after Sasmira Tie up R&D will be much better

The capacities for the company are fungible across segments and products. This has resulted in better revenue generation on every unit of investment. Additionally, the investment required to put up additional capacities is low for the company and this has supported the strong

RoCE at 21-22% and asset turnover of more than 5 times over the past few years

Business Segment -

- Textile (Major Revenue)
- Home Care and Hygiene(Recent Entry)
- Drilling (Recent entry)
- Other Specialities

-Speciality textiles - FCL manufactures chemicals for entire value chain in textile segment from weaving to finishing.

- Major Customer (See Below)

Specialty Textile Chemicals Overview

FC

Sales in 60+ countries including Brazil, Bangladesh, Germany, Indonesia, Malaysia, Singapore, Syria, Thailand, USA, Venezuela and Vietnam

-Revenue mix (FY 21) 57% international 43% india

Aquastrike VCF-(Product developed by Malaysian subsidiary) waiting for WHO Approval since last 3 yrs (Not sure whether they will get approval or not but its a interesting product)

It is a non toxic, non polluting, Eco-friendly solution, produced

- Simply poured on the water surface at a rate of 1ml per square meter, the silicon based liquid forms a molecule thick film, that doesn't stop water oxygenation (so no effect on fish, worms, snails and vegetals) but alter the water surface tension

. As a result, larvae and pupae are unable to attach their breathing syphon and end up drowning.

- The adult mosquitoes while trying to lay eggs on the surface of the water, drown because of the lower surface tension.

- It doesn't kill the mosquitoes by poisoning. Aquastrike effect is physical not chemical, which eliminates the risk of mosquito developing immunity to the product as it is the case with some insecticides or even BTI.

Risk -

1- Big European competitors

Clariant (Archroma)

Huntsman

Woodolf

CHT

Woolera

ICI Croda

2-Sebi Fined Promotors for IPO case

3- Many family transections (Probably to save Tax) Read article by Dr Vijay Malik for Details .

Why I bought shares of FCL

1- New capacity in coming up

2- Tie Up with Health Guard Australia for products

3- Growth in Textile industry

4- Recent entry in Home care and Hygiene Products

5- R&D will be better with SASMIRA tie-up.
