What all goes into my different wealth buckets asked @kbjayashankar

First, #financialindependence / Retire Early bucket that has current qtr expenses + war chest (bear market investments) + 3 years of living expenses (bear market use) + long term nest egg investments

Second, Financial Fortifications (thanks to @RamaniSumit for the term)

First 4 are a must-have for me and Bootstrap is a small amount (enough to experiment with 4-6 business ideas to test feasibility) that I expect I wont ever use.
But better to have it and not need it.

I'm currently working towards Financial Abundance.

LTC Plan - because India doesn't have Long Term Care Insurance for one's own longevity risk
Elder Care - maybe needed for parents & in-laws if they reach 80s/90s
Retirement Home - to buy a home in a retirement community
