1/ Bento timeline - New lending solution that focuses on isolated lending pairs, flexible oracles, targeted interest rates, gas optimization and flash loans. Aiming for early to mid Feb. Bento Explainer here: https://t.co/QWb0hBYx8I

2/ UI changes - Deprecating and consolidating onto one domain. https://t.co/tH4BdswQmN. New UI will cover all features. Longer term a Sushi Plugin is planned. Making it easy to incorporate Sushi into an App or website. Will attract new users (Stripe did this very well btw).

3/ Integrations with @tradingview coming. Merging of API with their trading system on Sushi trader . Will enable live Stream of prices.

4/ Collaboration & partnerships with @iearnfinance and others are to ensure they are all pushing in the same direction. Everyone helping eachother, nothing formal. Everyone sharing ideas.
