The Enemy

Goal of the Globalist Project: The "Genocide of the Vital for the Profit of the Profitable Occult". Means of Financing the Project: Among other things, using Humanitarian Aid, International Food Aid in order to finance the "Multinationals" of the 6.6.6.

To achieve this goal, it is imperative to be able to infiltrate the Media (Radio, Television, Newspapers), the circles of "Fashion" and "Culture" (the circles of New Music) by which we will undoubtedly influence all layers of Western Societies.

Thus by keeping the youth (the adults of tomorrow) under the control of the "Senses", we will consequently have the free way to infiltrate, and to transform in depth, without being worried, the Politics, the Legal System and Education;

which will allow us to modify in depth the course, the future orientation of the Companies targeted by our "Plan".

Populations, we know, have no historical memory. They tirelessly repeat the mistakes of the past without realizing that these same mistakes had led their fathers, before them, to the same downgrades that they will experience worse before the end of this century.

See, for example, what their grandfathers experienced at the beginning of this century thanks to the hard work of our predecessors.

After having known, without limits, the liberation of morals, the abolition of morality (in other words, the wandering of the mind), they experienced the "Economic Crisis", then "War".

Today their grandchildren and their children are heading straight for a similar outcome, even worse because this time, it will finally allow us to set up our "New World Order"...

without any of them being able to realize it, too preoccupied that they will all be excessively satisfying their most basic sensual needs.

You are their enemy

They are weaponizing the children

CONTROL

New World Order

They Start the War

They Win the War

They Take it ALL

"Thanks to our Undercover Agents and our colossal financial means, unprecedented progress has now been made in all areas of Science and Technology of which we financially control the largest corporations."

Since the secret meetings with M. de Rothschild in the year 56, and which aimed to finalize the development, and the worldwide establishment of "Computers", ...

it is now possible for us to foresee the establishment of a kind of "International Highway" where all these machines would be linked together.

Because, as you already know, the direct and individual control of the populations of the planet would be at the very least totally impossible without the use of Computers, and their electronic connection to each other in a vast "World Network" .

The organization of these machines in a vast "World Network" of which we will control the upper levers, will serve us to immobilize the populations.

While this lost man will be absorbed by his blind enthusiasm to be part of his new "World Community" by being part of this vast "Network of Computers", on our behalf, we will see, from the higher levers which will be hidden from him. ,

to file it, to identify it, to record it, and to make it profitable according to our own objectives.

Who can suspect us? Who can imagine the means used? Those who dare to stand up against us by disseminating information about the existence and the content of our "Conspiracy", will become suspect in the eyes of the authorities of their Nation and their population.

Thanks to the disinformation, the lie, the hypocrisy and the individualism that we have created within the peoples of the Nation-States, Man has become an Enemy for Man.

Thus these “Independent Individuals” who are most dangerous for us precisely because of their “Freedom”, will be considered by their fellows as being enemies and not liberators.

The slavery of children, the plunder of the wealth of the Third World, unemployment, the propaganda for the liberation of drugs, the brutalization of the youth of the Nations,

the ideology of "Respect for Individual Liberty" disseminated within from the Judeo-Christian Churches and within Nation-States, obscurantism seen as a basis for pride, inter-ethnic conflicts, and our latest achievement:

"Budget Restrictions"; all this finally allows us to see the ancestral fulfillment of our "Dream": that of the establishment of our "NEW WORLD ORDER"

He's Fighting for You ALL!
