The mass arrests have to happen very soon. It's only logical.

Here are the 3 reasons... (a short thread) ■

Es muss sein - Beethoven.

(1) Lin Wood, defamation lawyer who just won over half a billion dollars for his client, Nick Sandmann, saying Chief Justice John Roberts is guilty of human trafficking and Jeffrey Epstein is alive.

Do you really think a defamation lawyer would say this if it weren't true? ■

And #LinWood is trending right now. 3x more tweets than #TimesSquare. ■

(2) News is spreading that the Obama administration knowingly funded terror-linked organization. ■

This is from a new report just released before Christmas from @ChuckGrassley -- Read it here: https://t.co/RmgwRl2hqm

Why is this important to our timeline? ■

Kew told us the net would shut down when pics surface of Hussein holding an AK47. After that we will get the announcement from the Emergency Broadcast System. POTUS will be on AF1. What has @DanScavino been posting lately? ■

Some recent posts from Dan... AF1 ■

(3) Vax being rolled out in US... but now lagging. I personally do not believe it will reach the general public. Not safe -- reports of Bells Palsy, deaths.

The arrests have to happen first.

Es muss sein!
