Here's our Sunday Wrapup
- Our 2021 Spring Previews are out (will be linked below
- Bike shortages will be a real thing this year. We're already feeling it with some brands.
- We're upset/scared/frustrated about Covid, and are limiting appointments to urgent repairs only.

City Bike Preview--> Breezer, @VSFManufaktur, @gazellebikesusa
Affordable transportation. Reliable & built to last (with 10 year warranties). Fun and easy to ride every day.

Family Cargo Bike Preview--> @ternbicycles @UrbanArrowcom @larryvsharry @babboe_bakfiets
--
So many amazing choices to have fun with your family while getting stuff done. Our family is rolling with a Larry vs Harry Bullitt, and a Tern GSD in 2021. https://t.co/mwC2oeDbru

Cargo Bikes for Business -->
This is a new opportunity for local businesses to take advantage of an incredible $2000 grant toward an electric cargo bike. We're here to consult with you on the best way to move your business forward, on a bike!

And finally, our Covid operations update. We're staying home, unless you need us. We're here for urgent repairs by appointment (did about six of these yesterday), and trying to do most of our consults for new bikes by email and phone.

While we're hoping vaccine rollouts continue, we're not anticipating "back to normal" anytime soon. All services will be by appointment until we reach #CovidZero. Mobile bike repair will return and expand in the spring.
Cafe will be closed (again... sigh...).

We're excited about a *lot* of things in 2021. You'll meet some new faces in the store (we'll be hiring soon). We'll hopefully be able to do community events/rides again. And maybe, just maybe, see yourself on a bike in a way you didn't think was possible. Cheers to a new year.
