The public supports less policing and prisons but Harper invested in social discord.

Policing, Prison and construction were linked under the Harper Government. https://t.co/zQCFKBi8T6

Richard Bird was VP of Enbridge and he also served as a member of the Canada's Federal Minister of Finance's Advisory Committee on Financing and currently serves as chairman of the board of directors of the Alberta Investment Management Company

There was bid rigging corruption and collusion during Prime Minister Harper's term as they invested in private prisons across Canada. Read here. This mentions Bird Construction Inc. Richard Bird was VP of Enbridge Pipeline Inc.

Richard Bird was connected to Harper via Mike Duffy. He got his prison scheme just before Line 9 was fully approved even though the only one supporting it were the proponents. https://t.co/tUsdASiMOU

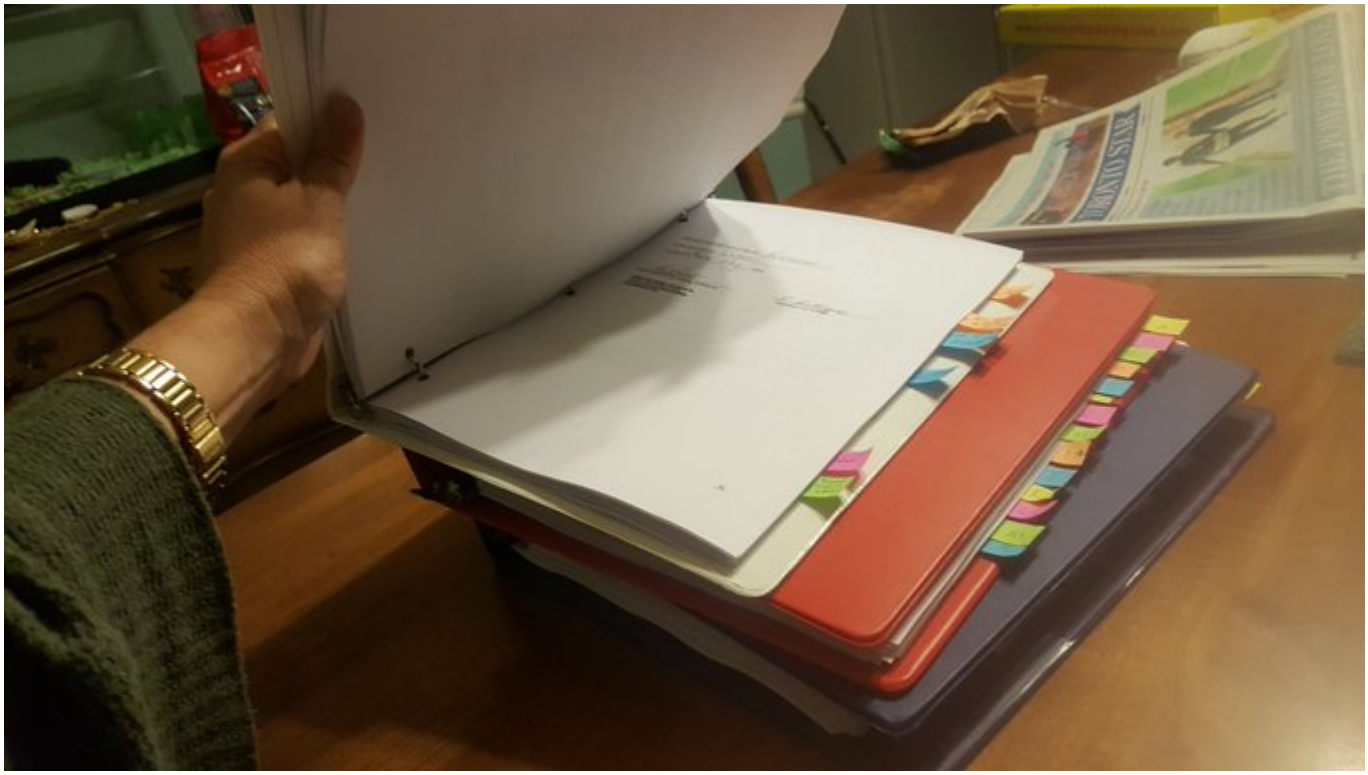

July 3, 2012 Bird Construction Inc., was awarded the contract to build the $38.5-million Correctional Facility in Priestville, Pictou Co., Nova Scotia within weeks prior to the final decision of Enbridge Line 9 phase 1 on July 26, 2017.

PM Harper's Omnibus Bill removed the impartiality of the NEB before Line 9 decision when it gave the Prime Minister's Office Veto power over NEB decisions. I was a delegate. https://t.co/ZounWhh5N1

This article notes Bird Construction was handling Military Contracts too and states they were hacked.

Canada was laundering money at Intratrust in the Netherlands. Page 11 shows how. Prime Minister Harper invested in war, oil and CPPIB who manages Canada's Pension has no ethics guidelines so they funded weapons, private prisons, ICE detention centres etc. https://t.co/fec9GIBDpj

I submitted binders of info to MPs, MPPs and many others. Canada has no plausible deniability on the corruption, collusion, bid rigging or offshore banking, tax evasion or the roll Prime Minister Stephen Harper had in facilitating the mess.
