David Larry (2003) - Trading Explosion Breakaway Gaps

How to trade Breakaway Gaps?

First of all - identify a Breakaway Gap by looking at price breaking out with a gap wherein no shares exchanged hands. If you look at the attached chart of NELCO, you can see one on 12th August.

Nest step - wait for few sessions to look for "if the gap is filled or not" and simultaneously look for "PIVOT LOW".

What is pivot low? It is a candle that is surrounded by two candles on either side with higher lows. Ideally, this should be your stop-loss point. Candle 2 is PL
