Whether we are in a recession or not

People would keep:

- Drinking Alcohol \$DEO
- Smoking \$MO \$BTI
- Eating chocolate \$HSY \$LISN \$MDLZ
- Brushing their teeth \$CL
- Eating food \$NSRGY \$MCD \$GIS
- Using toiletries \$PG \$UL \$KMB

26% CAGR makes your money 10x in 10 years.

(@insharebazaar)

<https://t.co/wnH1HePpMM>

If you are making 26% CAGR then Rs 10,000 invested at 23 has the same value as:

Investing Rs 1 Lakh at 33

Investing Rs 10 Lakh at 43

At 26% CAGR, your money grows 10 times in 10 years.

Young earners should realize this power and start early.

No amount is too small to start.

Some life lessons.

(@ipo\_mantra)

<https://t.co/EEE9fNLL4D>

Old Life Lessons:

- Mind your Thoughts: If u are Alone
- Mind your Tongue: If u are with Friends
- Mind your Temper: If u are Angry
- Mind your Behavior: if u are in a Group
- Mind your Emotions: If u are in Trouble

-Mind your Ego: If God showers His Blessing

Do u want to add more ?

Look for feedback from the employees of the company, as results can be manipulated.

(@ipo\_mantra)

<https://t.co/xyFGUJea7Q>

Its a fact that:

Results can be manipulated .. but not the actual feedback of Employees.

"If Employees of a Company are not happy ... then Shareholders of the that Company can't be happy at all"

Learn to identify those who are truly on a winning path.

(@bhatiamanu)

<https://t.co/rA6xFJrocX>

If two folks have 10L each

One Invests/Trades & makes 5L, So now at 15L

The other spends 5L on a vacation & posts cool pics on SM, So now at 5L

Second looks like he is winning but actually the first is on the winning path

SM is just a highlight piece, Don't fall for it \U0001f44d\U0001f44d

Make your first lakh & maintain discipline.

(@CaVardhanCa)

<https://t.co/4Vf9BZaQDh>

If you can make 1 Lakh in Market , you can make 10 Lakh, 50 Lakh, 1 Crore, 10 Crore or whatever other amount you want to make.

What holds most people back is that they never make the first lakh.

All you need to do is stay Discipline with your Proven Plan!!!
