Nice Run. Eight weeks into the new #Gold Weekly Cycle and now there is some renewed interest.

Gold now stands at the fork and an important tell is up ahead.

My views are in this blog post from few weeks back.

Junior Miners finally showing a lot of promise for a bull market resumption.

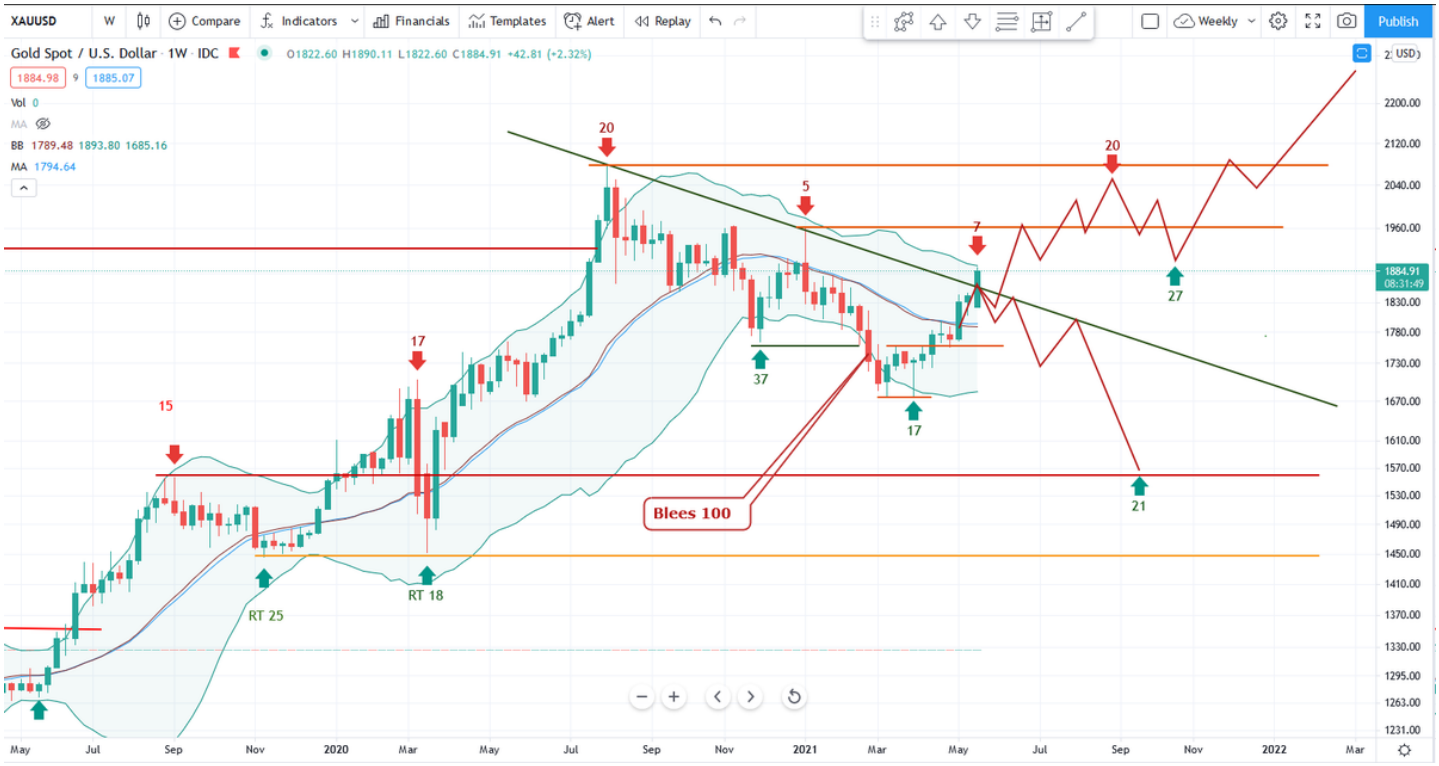

Gold trading strongly counter to risk selloff. That's the type of gold action i like..

A strong close today and this Gold weekly chart shows so much promise. And silver looks ■

We've been in Silver since early April.
