Labour Grandees are listed in Sir Keir Starmer's colleague Jeffrey Epstein's "Little Black Book"; Blair, Mandelson and Alastair Campbell. COINCIDENTLY, Keir Starmer and some of the same people have connections to ANOTHER of the worlds most prolific peadophiles. #StarmerOut

Starmer failed to bring charges against Jimmy Savile for paedophilia. The decision was made despite the Crown Prosecution Service receiving substantial evidence of his crimes from witnesses and victims several years before Savile died in 2011. #StarmerOut https://t.co/PNyX5uSAkw

With a past like hers, Margaret Hodge might show a bit more humility.
In the Eighties Hodge was aware of previous child sex abuse in the care homes for which she was responsible, and did nothing about it. #LabourLeaks #StarmerOut https://t.co/9xQf1U6lE9

As leader of Islington Council, a post she held from 1982-92, Margaret Hodge was aware of previous, horrendous child sex abuse in the care homes for which she was responsible, and did nothing about it. #LabourLeaks #StarmerOut #CSA

She was guilty of rather more than a casual failure of oversight. In an open letter to the BBC after it investigated a range of monstrous abuse (child prostitution, torture, alleged murders), Hodge libelled one of its victims as “seriously disturbed”. #LabourLeaks #StarmerOut

Years later, in 2003, she was forced to pay Demetrius Panton £10,000 in damages, he called on Hodge to resign. By then, her friend and neighbour Mr TONY BLAIR had seen fit to promote her to – what else? – MINISTER FOR CHILDREN. #LabourLeaks #StarmerOut

Her transformation from Islington’s Enver Hodgea (the Red Flag was raised over the town hall and a bust of Lenin imported on her first day as council leader) to relentlessly on-message New Labour parrot was complete. She did not resign. #LabourLeaks #StarmerOut

Never does Hodge let her personal history temper her contempt for those whose failures seem so trivial compared with her own, or permit a shard of self-awareness to put the tiniest puncture hole in her titanium shell of righteous indignation. #LabourLeaks #StarmerOut

Even generally decent and well-meaning people can be prey to arrogance, incompetence and – she will forgive the Hodgean bluntness – stupendous hypocrisy. Recognising this with a hint of humility might be an idea for Margaret Hodge, even at the expense of the occasional headline.

The evidence of who Sir Keir Starmer is has been there for years. The record shows he is deeply embedded in the networks of power that run Britain, concerned with power and little else.

People didn’t have their eyes open. #StarmerOut #LabourLeaks https://t.co/g7l5raUcSC
