Rockefeller has devoted his life to one world government, i.e. the New World Order (NWO). He founded the Trilateral Commission and is integral to the Council on Foreign Relations. /2

“We are grateful to the Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost 40 years. /3

… It would have been impossible for us to develop our plan for the world if we had been subjected to the lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a world government. /4

The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries.” /5

Later, he notes: “Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as ‘internationalists’ and of conspiring with others around the world to build a more integrated global political and /6

economic structure, one world if you will. If that is the charge, I stand guilty, and I am proud of it.”

The primary obstacle blocking the “sovereignty of an intellectual elite and world bankers” is a strong, democratic, sovereign

America. Both cannot exist simultaneously. /7

Therefore, our mortal enemy has been decimating America for decades, the battlefield littered with the middle class, dazed soldiers wandering in despair, jobs lost, pockets empty, homes foreclosed, dreams crushed and forced to bow to their oppressors if they travel by air. /8
