1. I am in the process of recovering four years of destroyed Twitter posts from my recent hack. Most related to an organization of rogue CIA agents doing election hacking, drug running, and dark weapons trading in a group led by AG Bill Barr. Other have call this the Enterprise.

who paid for the weapons with cocaine dollars, hence the name Iran–Contra affair.

All was done without required the US congressional approval, in violation of US law. When President Jimmy Carter forced the early retirement of 800 CIA agents, many of them loyal to former CIA Director Bush, they regrouped as a private intelligence and business network, a kind of covert "deep state," informally calling itself "the Enterprise." This network, active for Vice President George H.W. Bush in the Iran–Contra affair, was used by Bush, now as US president, to loot and deform all of communist Eastern Europe and, ultimately, Russia under their asset, Boris Yeltsin.

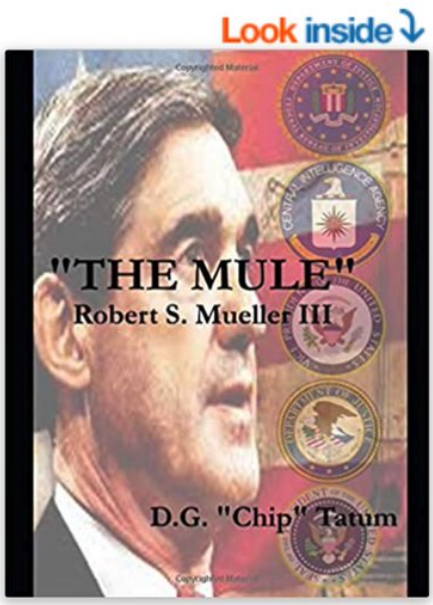

The companies George H.W. Bush sanctioned under the code name "the Enterprise" were soon to be responsible for the CIA-financed coup that brought down Mikhail Gorbachev and the Soviet Union in 1991. But the machinery and organization of the Enterprise was also responsible for bribing or corrupting key KGB generals and creating what came to be called the "Russian oligarchs" to loot the crown jewels of the former Soviet State, now legally known as the Russian Federation. Their looting included the entire gold reserves of the Russian National Bank in the early 1990s. That

2. The Enterprise is run Bill Barr himself and organized 800 ex-CIA agents and 300 ex-Soviet KGB Generals into a junta of 1,100 Frank Guistra partners in a sort of law firm of international crime. Iran Contra drug running was the first major operation in 1980. by the Enterprise.

Gene "Chip" Tatum, a native of St.Petersburg Florida, was a Vietnam Special Forces Air Combat Controller, Defense Intelligence Asset, and US Army special operations pilot flying classified missions during the US invasion of Grenada, Tatum was also involved in the Nixon Administrations relations with China, NASA's Apollo Program, the Iran-Contra Affair, and several other classified intelligence operations dating through through 1992 . Working directly for the sitting Presidents. From sensitive and highly secret - and hitherto largely unknown - Special Forces covert operations in Cambodia, to wandering CIA asset, through to "black ops" activities in Grenada and Oliver North's Iran-Contra "Enterprise." Tatum knows where the skeletons are buried.

3. Chip Tatum, a CIA pilot, flew Bill Barr, then a CIA attorney for George Bush, to Central America for Iran Contra banking and money laundering operations talks about this extensively in him book about his close friend, Robert Mueller, entitled, "The Mule".

5. You can see in these 2016 show notes how my focus was on a USAID funded Serbian election flipping, subversive group called OTPOR. This group received subversion funds for election flipping through KKR, a joint venture of David Petraeus and Henry Kissinger.

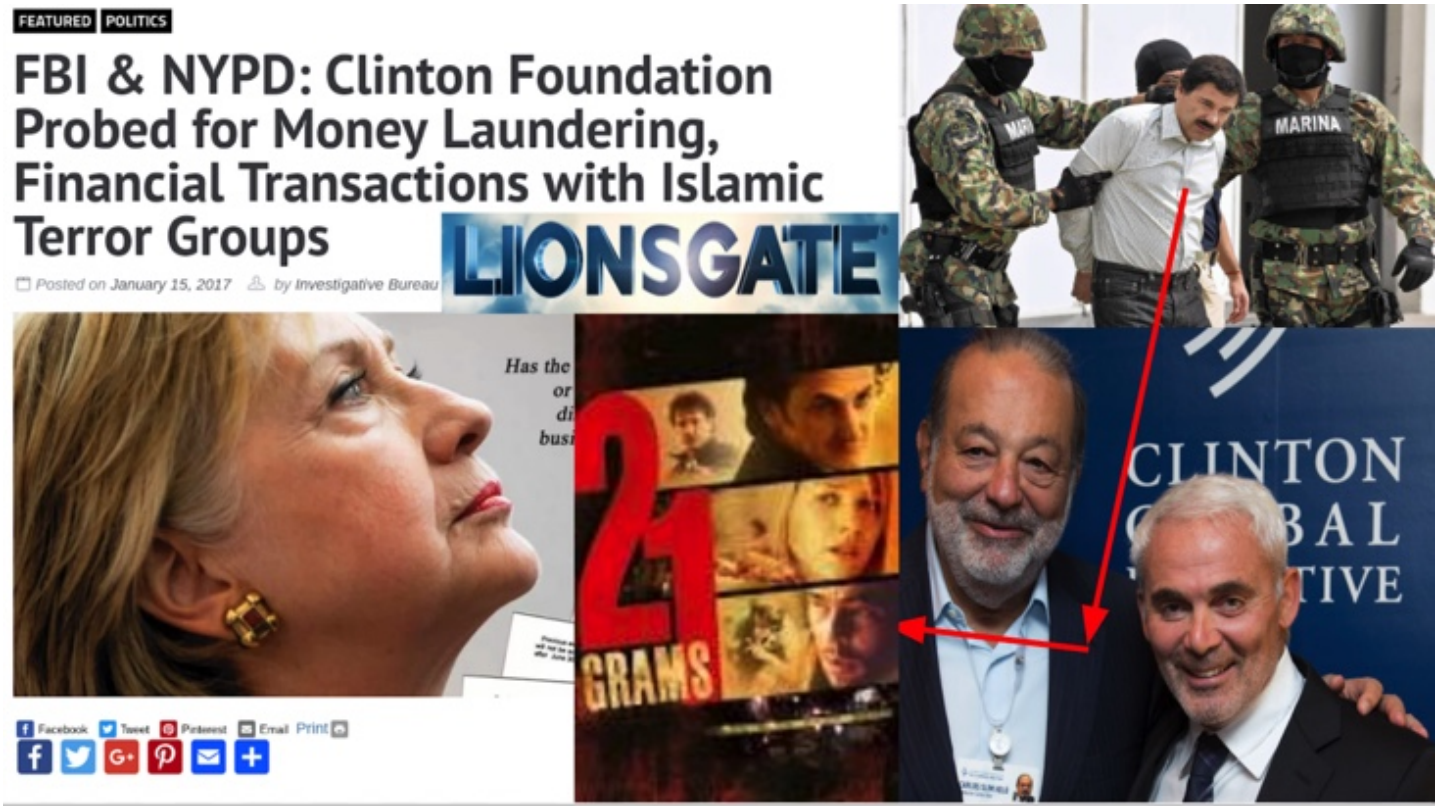

6. Most surprising thing about the Enterprise, or the 1,100 Frank Guistra Enterprise Partners, is that it is a bi-partisan group of Democrats and Republicans. The Enterprise strategy is to control the Left and the Right, as you would your two hands on a steering wheel. From 2016

7. Some have termed this group the Deep State or "national security state" since the National Security Act of 1947, but I have been careful to say this is a small, rogue splinter group from the CIA since Iran Contra, recruiting from veterans of the JFK assassination and Phoenix.

8. A fundamental premise is my research has been to look at the encrypted communications of this "Enterprise Network", and you can create a bounding box for research of where the last attack came from, and where the next election operation is going to happen.

9. If you follow key Clinton operative, Peter Strzok and his covert communications with go-betweens Lev Parnas and Igor Fruman to Ukrainian billionaire oligarch Igor Kolomoisky, you can begin to see the black hand in Trump's Impeachment operations.

10. If you want to predict what network did election operations in the Fall of 2020, you might have the best luck in looking what "Enterprise Network" did the 2020 Impeachment operation and of dozens elections overseas in the previous twenty years with Serbian hackers OTPOR.
