Good morning Zimbabwe. Thank you again to all the people messaging me to be part of the anti-corruption movement. My desire is to build teams of people for different focus areas to apply pressure on the system.

1. Judiciary- work to identify and expose compromised justices, state interference of court cases. Persecution of opposition figures and journalists. Fight for s59 of the constitution as a key part of the fight against corruption.

2. ZACC- work closely with ZACC to communicate status of current investigations. Identify weaknesses and strengths.

3. Auditor General- work with the AG to better understand how tax dollars are being spent. Scrutinize government operations.

4. National budget- forensic accountants to review current and previous budgets. Identify things that don't make sense.

5. ZRP- confront the issue of police brutality and corruption within the force. Develop a blueprint for what we want our police to look like.

6. ZEC- electoral reforms. Accountability. Citizens should help develop better voter registration systems. Conditions for Diaspora vote established before 2023.

7. Digital media - create a campaign to inspire young people and all Zimbabweans to become more active.

8. Community engagement- spreading the word about a citizen driven anti corruption fight. Flyers, knocking on doors, social media connections. We need to drown out Zanu PF propaganda with the truth.
