Thread --> #pennsylvania state police #dauphincounty . TROOP H. @DauphinCounty @PriesMike @PAStatePolice

1. While i do NOT support #DefundThePolice The inundated abuses of the Elizabethville barracks need attention. If video recordings w/audio were lawful I'd have done so.

2. Yesterday I witnessed a shit show at a local magistrate's office north of #harrisburg #dauphincounty #pennsylvania. Commonwealth v. McClelland, With the Supreme Court’s ruling, prosecutors will again have to present more than just the arrest at a preliminary hearing.

3. This means the arresting officer MUST BE PRESENT in order to testify. Any officer sent in lieu of arresting officer is hearsay.

4. I witnessed from my car a state trouper, outside on his cellphone assumably with his barracks yelling and cursing like a brooklyn truck driver . Says hes sent to cover said officers cases but has NO PAPERWORK.

5. Im admittedly entertained by this meltdown. Im citing case law loudly from my car. State assembly code.
Case MUST BE DISMISSED. He heard me, however he ignored me like the busboy at hooters.

6. The loud profanity that came out of barney fife in the public parking lot was a gross display of law enforcement. Wait it gets better.

7. Inside the closed door court room you could hear them arguing about this. With the judge present, barney fife boldly bellows "I DONT CARE IF HES INNOCENT !!". barney fife sure wasnt having a good day.

8. The public defenders appeared via video call. All these cases sans the original arresting officer should've been dismissed. 'Deals' were made in lieu.

9. Barney Fife's tantrum in the parking lot spoke volumes about the Pa State Police . His vile temperament and their dereliction of duty in addition to constitutional & state law violations is the precise reason I wont give them a dime during annual fundraising.

10. Know your rights #pennsylvania. Even the public defenders office is 'compromised'. These attys are about as useful as a screen door on a submarine.

11. @PAStatePolice #dauphincounty @governortomwolf #pennsylvania Better get used to this president @potus #WeThePeople follow the #Constitution & rule of law.

12. Days of abuse of power & #communist tactics are over. Ill always #DEFENDthepolice however your barney fife's need to be re-educated. No defendant should've taken a deal. You weren't owed that. You fkd up. And their respective attys tits on a bull - useless.

13. The presiding magistrate is thankfully not a compd asshole.
