Some deputies miss seeing what's up and how bad it was but I wonder how candid the commentary is when I think - you had to be living in a box.

Having worked at the Sheriff's Dept for years including many years in narcotics, and later with the DA's Office I am familiar with most of the people mentioned. Some of them were my friends. I retired about the time this story starts but I can say that I never observed anything like any of this terrible stuff alleged. It was not normal or accepted practice in my experience. I hope it is not true but it looks like you did a pretty darn good piece of investigative reporting Royal.

A master work of fantastic #journalism by former @MontereyHerald editor @Calkins_Royal ... hard to ignore.

Unless you are the Monterey County District Attorney or any one of the MoCo Board of Supervisors.
