I’m sharing below parts of a document I shared with top functionaries of the AJK govt. as far back as early 2017. I had then discussed Indian actions in Kashmir, its possible moves & how to counter them,including the propagation of well documented cases of Indian atrocities

2 . against unarmed Kashmiri civilians on both sides of the UN-monitored ceasefire It fell on deaf ears then, and now that Kashmir is being lost, they are left with nothing but ritualistic protests, statements, seminars and webinars.
