■■DOMINION MAP■■ Look at GA! No wonder [@LLinWood](#) has been going after [@GabrielSterling](#) [@GaSecofState](#) [@BrianKempGA](#) so hard. Knowing the statistically impossible overperformance on Dominion, now we need to focus on Gabe and the contract deal 2/

dominion map.pdf

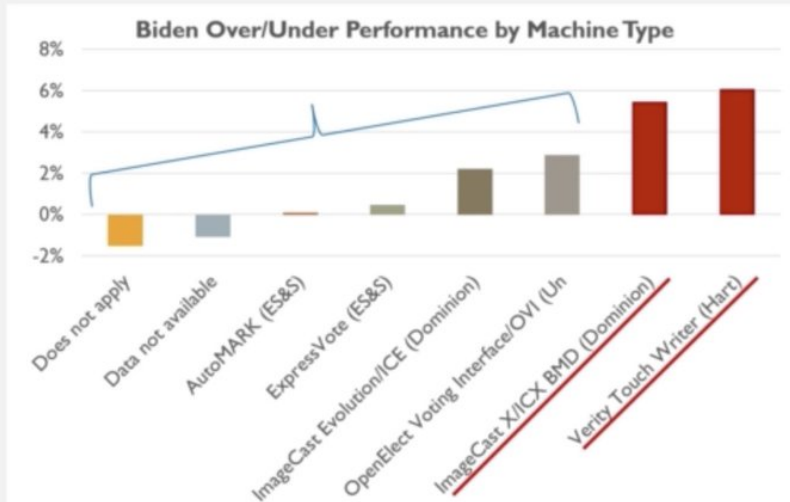

Dominion Voting Systems, Post-Merger

2/Part of the steal. Across the country.

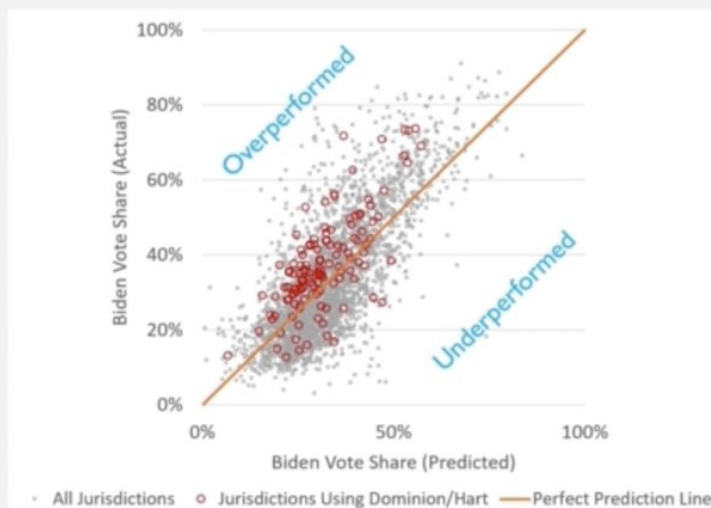

BIDEN VOTE SHARE PERFORMANCE ACROSS MACHINE TYPES

- Counties using Hart or Dominion BMD devices showed significant overperformance for Biden compared to ALL other voting systems

3/Simple stats across the country shows how Dominion perfectly lines up with the overperformance.

INFLUENCE OF DOMINION VOTING MACHINES ON ELECTION OUTCOMES

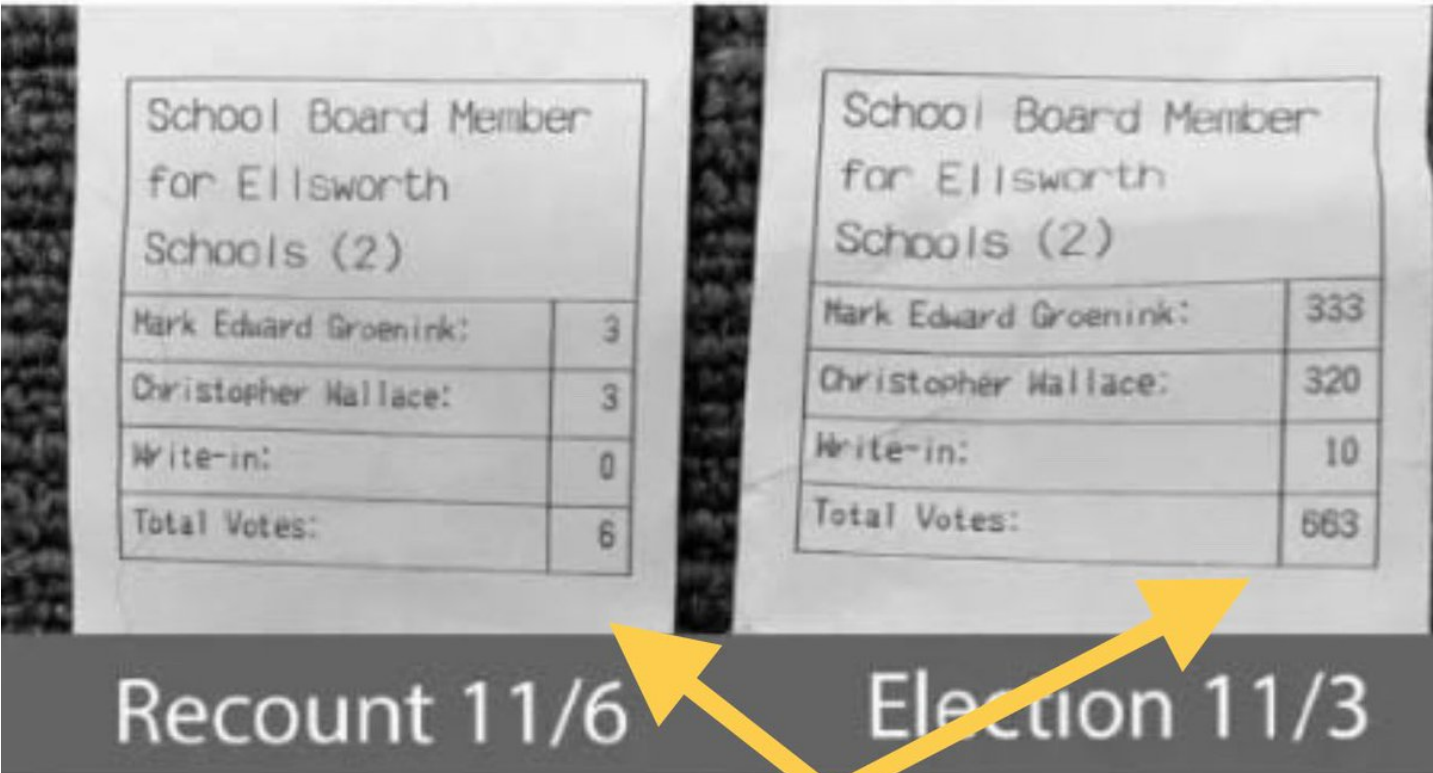

Jurisdiction	Avg Difference (Actual vs. Predicted)	Over Performing Counties %	Under Perform Counties %
Non-Dominion Jurisdiction	-0.546%	45%	55%
Dominion Jurisdiction	9.117%	72%	28%
All Votes in Data Set	-0.002%	47%	53%

- Red Dots are Counties With Dominion
- Counties Using Dominion Machines are Clearly Too High
- Does Not Fit In With the Rest of the Country

4/Reminder how CEO scoffs at "Chinese" money yet UBS is Chinese owned, they invested \$400M in State Street Capital who owns Dominion. Pretty simple. CEO obfuscates like OJ trying on the glove.

5/Some more charts and evidence of malfeasance.

WHAT THE FUCK!!!
