I’m glad this 7/19 thread was revived. I’d lost it.
Many have tried to warn of the radical religious infiltration of our Gov’t.
Esp @anelsona on the CNP’s long game for 2020, that began during the Regan admin & was to end w/■■ruled by “Judeo-Christian Law”.

First action: Catch up quickly. Read @anelsona book and listen to her interviews, especially if you know you won’t sit down to read a book, although, after you hear her speak, you’ll want to read it. Her research on the CNP reveals the roots to all that is going on right now.

Second Action: Watch the doc by Dr @charleskriel
"People You May Know".
He's a Sr Advisor on Disinformation to UK's Parliament. Anne Nelson is featured in his doc.
It's shows ■■churches participating in data culling & psych profiling to turn minds into radical right voters.
