**HDFC- how is it going now. Updated chart. Pure Price Action**

**<https://t.co/t8kbB7ExWF>**

HDFC - might pull back till 2620. A good risk-reward setup with a SL below 2560. I have entered with 2.5% capital only as large caps have a tendency of slow moves. [pic.twitter.com/wpdGLPPLGe](https://pic.twitter.com/wpdGLPPLGe)
