**#HDFC has given a decent breakout , I am looking for a move towards 2330-2365 zone, if the #stock sustains above 2285**

**RSI looking bullish**

**Monday is #USA trading holiday**

**Friday #DowJones surged 575 points**

**But as #Brent nears 120, it will be better to be cautiously bullish #Nifty**

Not a trading call, academic post
