## **Twitter Thread by Techno Prince**

#Hdfcbank weekly chart, stock at the edge of a megaphone pattern.

1290 is great support. Protecting 1290 stock can resume its uptrend towards 1700 over time

Breaking below 1285, the 1265 stock may fall towards 61.8% retracement 115, then 1050 (volume POC)
