HOW TO LAST LONGER IN BED■(18+)

Some men will last for hours while some men will have the audacity to last for 2mins. But don't worry, because you might even last for 8hrs in bed & she will end up cheating on you. A THREAD■

Are you a virgin?

RULE 1: DO NOT judge yourself with just 1 round. That's pathetic of you.

Who knows, you might be Johnny sins or a fuck machine from your round 2

So I advice you masturbate your first round off before sex, or you allow your lady try this on you■

(put your imaginations into work)
now let's get dirty....■

• hold his dick and rub it around your pussy, dip it in so that your pussy juice will wet it & get it ready.
