As if they didn't know this before or conclude CONSISTENTLY after systematic review + meta analysis of randomized controlled trials that masks do not mitigate communicable viral spread?

But TRASH "health" agencies & experts continue w/their Wear A Mask campaign & suppress niacin

https://t.co/1DRUO9L3ap

> And remember, @CDCgov already concluded in systematic review of 14 RCTs that masks don't mitigate influenza spread, and a meta analysis further evidenced that even N95 masks make no difference vs cloth masks, meaning that no masks - not even N95 - workhttps://t.co/mSwdz7U6tM
